PAUL'S WORK.

PREFACE.

IN issuing the Third Volume of the County Directory for Scotland, the Publishers have to apologise for the unavoidable delay which has occurred in its publication. The mode adopted for procuring information was to furnish the whole Postmasters in Scotland with blank schedules, to be sent to all suitable parties in each district for the purpose of being filled up. In the great majority of instances the necessary returns were promptly made ; but in other cases much delay took place, and from some quarters no returns were made at all. For errors resulting from this latter cause neither the Editor nor the Publishers can be responsible, although they have done their best to obviate them. The call for assistance has, however, been so generally responded to, that the Editor and Publishers would be wanting in courtesy if they did not tender their warmest acknowledgments to the nobility, gentry, and professional and trading classes, as well as to the postmasters throughout the country, for their indispensable co-operation and aid.

In cases where proper returns have not been received, the places and their Post-towns have been retained, so as to prevent names being inaccurately inserted—a course rendered necessary in order that the principle should be carried out of no name appearing without due authority. By the time that another volume is issued, it is to be hoped that the national character of the work will be so appreciated that no one will hesitate to furnish the needful details.

In the present volume, the number of names has not only been increased, but much additional matter has been inserted. The profession of each person is now given, and the principal inhabitants of each village are grouped together under its locality. Places having Post-Offices and Sub-Offices are no longer inserted in a separate list, but are included in the general alphabet of the First Part. The printing in italics of the various Post-towns will also be found to facilitate reference to this important department. The religious denomination of each clergyman is now quoted for the first time, a feature which it is hoped will add to the general value of the work. In the miscellaneous department, up and down mail routes, full postal directions, and other lists calculated to be of service during the time this volume will be in current use, have been copiously introduced.

In a work of such extent of plan, errors and omissions are not wholly unavoidable ; but any corrections sent to the Publishers will be carefully attended to, and a list of them inserted in subsequent impressions, as well as furnished at a trifling cost to the purchasers of the present edition.

INLAND POSTAGE AND GENERAL REGULATIONS.

All Letters and Newspapers should bear a FULL and LEGIBLE ADDRESS, the name of the post-town, as well as the sub-office, being put on them, to facilitate despatch, and insure a speedy delivery.

INLAND LETTERS and PACKETS, including those from the Channel Islands and the Isle of Man, are subject to the following rates of postage, irrespective of the distance they are conveyed :—

		Prepaid.		Unpaid.	
Exceeding	Not Exceeding	s.	d.	s.	d.

$\frac{1}{2}$ ounce	1 ...	0	2	0	4

12 ...	13 ...	2	2		
13 ...	14 ...	2	4		
14 ...	15 ...	2	6		

And so on, increasing 2d. per oz.

There is no limit to the weight of paid letters, but unpaid letters must not exceed four ounces ; any letter posted above that weight UNPAID shall be detained, opened, and charged double the prepaid rate, and, at the option of the *Postmaster-General*, shall be either returned to the sender, or given to the person to whom it is addressed.

Prepayment of inland letters, &c., must be by stamps, except at the Chief Post-Office, London, where prepayment of such letters from 10 a.m. to 5 p.m. is permitted in *money*, provided the amount be not less than £1. Letters also to the colonies and foreign countries may be prepaid in money. Except by soldiers and sailors in her Majesty's service, British postage stamps, however, are not available for the payment of letters, &c., *coming into the country*.

Every Postmaster is required to have on hand a sufficient stock of postage labels and penny stamped envelopes, and to sell them to the public at the following prices :—

STAMPED LABELS.					
Penny Labels	-	-	-	1d. each.	Sixpenny Labels - - - - 6d. each.
Twopenny do.	-	-	-	2d. each.	Shilling do. - - - - 1s. each.
Fourpenny do.	-	-	-	4d. each.

6 „	-	-	0	6 $\frac{3}{4}$	1 „ - - - - 1 $\frac{1}{4}$

Every Rural Messenger is authorised and required to sell postage stamps (including stamped envelopes) at the same prices at which Postmasters are empowered to sell them.

When adhesive stamps are used, they should be examined to see that they firmly adhere, since if they fall off, the letters, &c., will be charged with postage, which, in the case of inland letters and of some foreign letters, is double the prepaid rate. Any deficiency in the requisite amount of stamps for the prepayment of an inland letter is also charged double ; thus, an inland letter weighing above half an ounce and under one ounce, is charged twopence on delivery. The stamps should be placed on the front of the letter, and upon the right-hand corner of the upper side.

Arrangements have been made by which paper and envelopes taken by the public to Somerset House can be impressed with postage stamps.

LIMITATION OF SIZE, &c.

With the following exceptions, no letter, &c., can be forwarded by the Post which is more than two feet in length, breadth, or depth : nor any unpaid packet which weighs more than four ounces, unless three quarters of the postage have been paid. The exceptions are :—

- Packets to or from places abroad.
- Packets to or from any of the Government Offices or departments, or Public Officers.
- Petitions or addresses to the Queen, whether directed to her Majesty, or forwarded to any member of either House of Parliament.

Petitions to either House of Parliament, forwarded to any member of either House.
Printed Parliamentary proceedings.

ADDRESSES TO THE QUEEN AND PETITIONS TO PARLIAMENT.

Petitions and addresses to her Majesty, forwarded direct, are exempt from postage; and such petitions and addresses, as also petitions to either House of Parliament, if sent to a member of either House, are likewise exempt, provided they do not weigh more than two pounds, and are without covers or are in covers open at the sides. No letter or other enclosure, however, must be inserted; and if one be found, such enclosure, unless it bear the proper number of postage stamps, will be charged as an unpaid letter.

REDIRECTED LETTERS.

Every redirected letter, newspaper, or other postal packet, will be liable to an additional postage (at the prepaid rate), unless the redirection be not only made by an Officer of the Post-Office, but be to a place within the district belonging to the same Head Office. Thus, on a paid or unpaid letter redirected by an Officer of the Post-Office to any other postal district in the United Kingdom, and weighing not more than half an ounce, an additional postage is levied of one penny; or, if the weight be more than half an ounce but does not exceed an ounce, of twopence; and so on.

LATE LETTERS.

Late letters, &c., are received till within five minutes of the despatch of the Mails, except in those large towns where the Surveyor may deem a longer interval necessary, and excepting, that no office is to be kept open merely for this purpose after ten o'clock at night.

No late letters, &c., are forwarded by the Mail preparing for despatch unless prepaid, and that in stamps, so as to include both the ordinary postage and the late-letter fee.

LETTERS NOT TO BE DELIVERED BACK.

To prevent the possibility of letters being surreptitiously obtained from the Offices where put in, office-keepers are strictly forbid returning, to any person whomsoever, letters that may be applied for, under whatever circumstances the recovery may be urged. Nor can the letter be delayed in its being forwarded to its destination, even though a request to that effect be written thereon. This is, moreover, forbidden by the established principle, that the instant a letter is committed to the Post, it is no longer the property of the sender, but the party to which it is addressed, and to whom alone it must be delivered.

OFFICIAL INFORMATION NOT ALLOWED.

No information can be given respecting letters which pass through a Post-Office, except to the persons to whom they are addressed; and in no other way is official information of a private character allowed to be made public.

REGISTRATION.

By the prepayment of a fee of sixpence (which must be made, not in money, but by affixing stamps), any letter, &c., *paying full-letter rate*, may be registered. This will make its transmission more secure, by rendering it practicable to trace it, when inland, from its receipt to its delivery; and when foreign or colonial, if not to its delivery, at least to the port of despatch. The Post-Office does not guarantee the safe delivery of the letter, &c., though the officers are, of course, responsible to the Postmaster-General, who will call to strict account any one neglecting his duty on this point, and, if his Lordship think proper, will require him to make good any loss that may be sustained thereby.

Except to the few places abroad to which postage cannot be paid in advance, the postage of registered letters must be prepaid; and if the letter be inland, it must be prepaid in stamps.

To every person who presents a letter to be registered, a receipt is given.

The latest time for posting registered letters is entered in the Notice exhibited in every Post-Office, such time, unless otherwise directed by the Surveyor, being half-an-hour before the closing of the box for the Mail by which it is to be despatched.

PARLIAMENTARY NOTICES.

Parliamentary Notices may be forwarded through the Post under the following regulations:—

1. The words "Parliamentary Notice" must be legibly printed on the face of the letter; and in order to secure the speedy return of any notices which may be undelivered, the name and address of the solicitor issuing such Parliamentary Notice should also be legibly printed or written on the face of the letter; though this latter is not imperative.
2. These notices must be posted either at the General Post-Office, St Martin's-le-Grand, in London; the General Post-Office in Dublin; the General Post-Office in Edinburgh; or at the chief office at one or other of the following towns:—

Aberdeen	Exeter	Liverpool
Athlone	Glasgow	Manchester
Belfast	Inverness	Newcastle-upon-Tyne
Birmingham	Leeds	Norwich
Bristol	Lincoln	Shrewsbury.
Cork		

3. All notices which by the standing orders of either House of Parliament are required to be served on or before the 15th December, must be posted on or before the 12th December, unless the 12th falls on a Sunday, when they must be posted not later than the 11th; but those notices which by the same orders may be served later than the 15th, may be posted after the 12th of that month.
4. The postages chargeable on these notices must be prepaid by stamps; the registration fee of sixpence on each notice being paid in the usual manner.
5. The notices must be posted at the Post-Office window, accompanied with duplicate lists of the addresses; the letters being arranged, for the convenience of comparison, in the order of the list. These lists are examined by the officer in attendance at the window; and if each list correspond with the address, he will sign and stamp every sheet of each list. One of the duplicate lists will then be returned to the person who brought the letters, and the other forwarded to the Secretary, General Post-Office, London.

The hours for receiving both Parliamentary Notices and the undermentioned Voting Notices are the same as those for the registry of ordinary letters, unless the Parliamentary Notices be presented at such a time as to interfere with the ordinary duties of the office; in which case the Postmaster may appoint any other time within the next twenty-four hours for receiving the same; providing that, when the notices are to be served on or before the 15th December, such arrangement do not delay the posting beyond the 12th.

Whoever sends Parliamentary Notices should, if possible, arrange on the day before with the Postmaster as to the most convenient time for posting them, and state the probable number.

VOTING NOTICES.

On prepayment of the postage and of a registration fee of twopence, a notice belonging to any one of the classes enumerated in the Act 6 Vict. c. 18 (relating to votes for members of Parliament) can be sent through the post with the securities for their safe delivery enjoined by law, provided it be brought duly directed, open, and in duplicate, to a Postmaster of an office where Money Orders are issued or paid. On receiving the notice, the Postmaster has to compare it with the duplicate; and if the two agree, the latter will be stamped and returned to the bearer.

POLL-BOOKS.

When a poll-book is presented by any returning-officer to be forwarded by post, the Postmaster is required to give to such officer an acknowledgment in writing, stating therein the time when he received it.

No registration fee is demanded for poll-books, and prepayment of the postage is optional, without regard to weight.

NEWSPAPERS AND OTHER PERIODICAL PUBLICATIONS BEARING THE NEWSPAPER STAMP.

Although provision is made for forwarding newspapers, books, and money through the post, it is not compulsory on any one to employ this mode of transmission; everything except letters may be sent in any other way.

All periodical publications, including newspapers published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear an impressed stamp or stamps denoting the stamp duty (of the kind formerly confined chiefly to newspapers), may be transmitted and retransmitted through the post within the United Kingdom free of postage under the following regulations, viz. :—

1. They are subject to the same restrictions with regard to the number of sheets and superficial extent as were lately applicable only to newspapers properly so called. These restrictions are shown in the following Table :—

Amount of Stamps impressed on the Publication.	Maximum Number of Sheets.	Maximum Superficial Extent of Letterpress on One Side.
One Penny	Two	2295 inches.
Three Halfpence	Three	3443 „
Twopence	Four	4591 „

2. No publication, or portion thereof, can pass through the post, unless the impressed stamp which it bears be at least a stamp of the value of one penny.
3. The title and date of the publication must be printed at the top of every page.
4. The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside; except that where there are more than two publications in the same cover, it will be considered sufficient if the stamps are so arranged that they can readily be examined.

5. It must not be printed on pasteboard or cardboard, nor on two or more thicknesses of paper pasted together; nor must any pasteboard, cardboard, or such pasted paper, be sent with it as a back or cover thereto, or otherwise.
6. It must be posted within fifteen days from the date of publication.
7. It must either have no cover, or a cover open at the ends.
8. It must contain no enclosure.
9. It must have no writing or other mark thereon but the name and address of the person to whom it is sent, nor anything on the cover but such name and address, the printed title of the publication, and the printed name and address of the publisher or vendor who sends it.
10. If the publication be addressed to any person within the free delivery of the place where it is posted, it becomes liable to a postage of one penny, which must be prepaid by affixing a postage stamp.
11. When a newspaper, &c., is so folded as not to expose the stamp or stamps, a postage of one penny is charged in addition to any other postage to which the publication, if properly folded, would have been liable; and if the newspaper, &c., be addressed to any person within the free delivery of the place where it is posted, and do not bear a penny postage label, it will be charged twopence. In case of any other irregularity, the publication is dealt with in accordance with the regulations of the book post.
12. It is suggested that every publication should have a notice to purchasers conspicuously printed, pointing out the necessity of exposing the stamp or stamps to view whenever the publication is sent through the post.
13. Unstamped publications, or stamped publications which have been issued more than fifteen days, can be forwarded within the United Kingdom and to most of the colonies under the regulations of the book post.

Newspapers sent abroad are liable to the same regulations as newspapers passing (under the newspaper privilege) between different parts of the United Kingdom, except that, before going abroad, the name of the newspaper must have been registered at the General Post-Office; and that, instead of requiring to have an impressed stamp, each newspaper, if sent to a British Colony, is liable to a postage of 1d. (which must be prepaid by a postage label or in money), together with an additional postage (as shewn in the Table of Colonial and Foreign Postage) when the newspaper has to pass through a foreign country. In the same table will be found the postage of newspapers sent to foreign countries. In all cases of newspapers going abroad, the impressed stamp stands for nothing.

PARLIAMENTARY PROCEEDINGS.

Printed proceedings of the Imperial Parliament, sent without covers, or in covers open at the ends, may circulate within the United Kingdom at the following rates of postage:—

Weighing not more than four ounces	1d.
„ more than four ounces but not exceeding eight ounces	2d.
„ more than eight ounces but not exceeding twelve ounces	3d.
„ more than twelve ounces but not exceeding sixteen ounces	4d.
and so on; one penny being charged for every additional four ounces.	

Prepayment, when the circulation is within the United Kingdom, is optional; and if it be made in part, the simple difference is only charged.

Printed proceedings of the Imperial Parliament and of the Colonial Legislatures may be sent to or from the Colonies at the same rates as above, with some exceptions.

BOOK POST.

At the following charges, and on the subjoined conditions, book packets may be sent by the post to any place within the United Kingdom:—

Weighing not more than four ounces	1d.
„ more than four ounces but not exceeding eight ounces	2d.
„ more than eight ounces but not exceeding sixteen ounces	4d.
„ more than one pound but not exceeding 1½ pounds	6d.
and so on; 2d. being charged for every additional half-pound or any less weight.	

1. The postage must be prepaid in full, by means of postage stamps affixed outside the packet or its cover.
2. Every packet must be sent either without a cover, or in a cover open at the ends or sides.
3. If the postage paid on the packet amount to as much as 4d., it may contain any number of separate books or other publications, prints, or maps, and any quantity of paper, parchment, or vellum (to the exclusion, however, of letters, whether sealed or open).

And the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. Further, all legitimate binding, mounting, or covering of a book, publication, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached; as also rollers, in the case of prints or maps; markers (whether of paper or otherwise), in the case of books; and, in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto.

4. But if the postage paid be less than 4d., the packet must consist exclusively of printed matter, without restriction, however, either as to the number of publications or separate sheets, or as to whether they are bound or unbound. If any other matter be included, the packet will be subject to the penalty mentioned in the 9th condition.
5. A book packet, whatever may be the postage paid thereon, must not contain any letter, closed or open, or any enclosure sealed or otherwise closed against inspection; nor must there be any letter nor any communication of the nature of a letter, written or printed, in any such packet or in its cover. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter, and may therefore be made when any writing is permitted; that is, when a postage of 4d. at least is paid.
6. No book packet can be received, if it exceeds two feet in length, width, or depth.
7. Any packet which shall not be open at the ends or sides, or shall have any letter or any communication of the nature of a letter, written or printed, in it, or upon its cover, is charged with the "unpaid" or double letter postage.
8. If a packet be found to contain any letter, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorised enclosure, the letter or enclosure is taken out and forwarded to the address on the packet, charged with the full postage, as an unpaid letter, together with an additional rate of 4d.; and the remainder of the packet, if duly prepaid with stamps, is then forwarded to its address.
9. If a packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of 1d., it must be forwarded, charged with the deficient book-postage, together with an additional rate of 4d.; but any packet which shall bear no postage stamp is charged with the "unpaid" or double-letter postage.
10. In every case in which the postage charged upon a packet under these regulations would be greater than the letter rate, the latter postage is substituted.

Books when redirected to any other postal district in the United Kingdom are liable to be charged additional rates on delivery; thus, if weighing above half a pound but not more than a pound, an additional postage of 4d. is levied; or if the book weigh more than one pound but not exceeding two pounds, an additional postage of 8d.; and so on.

The Head Postmaster who first receives a book-packet is required, whenever he has ground for suspecting an infringement of any of the above conditions, and occasionally, even when there is no ground for suspicion, to open and examine the packet; and every book-packet which is not open at the ends or sides, or which exceeds two feet in length, width, or depth, or which has any letter or any communication of the nature of a letter, written or printed, in it, or upon its cover, or which does not bear postage stamps equal to a single book-rate, is ordered to be sent up, with as little delay as possible, to the Returned Letter Branch of the Circulation Office in London, Dublin, or Edinburgh, as the case may be; but in the case of any other infringement of the regulations, the packet is dealt with by the Postmaster himself.

To prevent obstacles to the regular transmission of letters, any Head Postmaster may, when necessary, delay forwarding a book-packet for a period not exceeding twenty-four hours beyond the ordinary time; and at Packet Offices the delay may, at the option of the Postmaster, be either for that period, or until the despatch of the mail next after that by which the book-packet ought otherwise to be forwarded.

DELIVERY.

Letter Carriers and Rural Messengers are prohibited from distributing any letters, newspapers, &c., whether before beginning their rounds, whilst on their rounds, or after they may have completed them, except such as have passed through a Post-Office. Nor are they allowed to receive any payment beyond the postage for the delivery or collection of any letter or newspaper, nor to deviate from the route laid down for them. The prohibition, however, from receiving payment in addition to the postage does not extend to Christmas boxes.

Except where the number of daily deliveries is considerable, and where, therefore, the Surveyor considers such a regulation unnecessary, letters are delivered at the window after the arrival of every mail (within office hours) as soon as they can be sorted. In all cases, however, when there is a corresponding delivery by Letter Carriers, the window delivery (whether to the holders of private boxes or to the public generally) does not begin till the Letter Carriers have left the office, nor is it allowed in any way to delay the departure of the Letter Carriers.

In order to prevent the additional trouble which is sometimes caused by letters being directed to a Post-Office, although for persons residing within a free delivery from such office, but who have no

private box, a Postmaster is authorised, when such letters arrive by a mail for which there is a delivery from house to house, to refuse to deliver them at the window, and to send them out by the Letter Carriers, except such as are addressed to the military in barracks.

Any person can have a private box who is willing to pay the appointed fee. Where this fee goes to the Revenue, it is generally fixed at one guinea per annum, to be paid in advance, and for a period of not less than a year; and where it goes to the Postmaster, he may demand the same terms, though he may, at his option, take less. The same also, in most cases, are the terms for a private bag, except that in addition there is the cost of the bag itself, and a charge for conveyance, the maximum of the latter being half a guinea per annum if by a foot messenger, and two guineas if by a mounted one. As the service of a private bag, however, may possibly delay the despatch of the general bag, none are allowed without the permission of the Surveyor.

MISCELLANEOUS RULES, &c.

ARTICLES WHICH MAY NOT BE SENT BY POST.—Letters or Packets cannot be forwarded, conveyed, or delivered by the Post-Office, containing any of the following enclosures, viz:—any Glass or Glass Bottle, any Razor, Scissors, Knife, Fork, or other sharp or pointed instrument; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance; any Bladder, or other vessel, containing liquid; or any article, matter, or thing whatsoever, which might, by pressure or otherwise, be rendered injurious to the officers of the Post-Office, or to the contents of the mail bags; and the Act 3 and 4 Vict., c. 96, expressly directs that no letter shall be sent by post containing any **EXPLOSIVE OR OTHER DANGEROUS MATERIAL OR SUBSTANCE.**

Every Postmaster is required to have a notice conspicuously placarded, giving information respecting the hours of attendance, the despatch and delivery of letters, &c.

During the time the office is open on Sunday the public are allowed to prepay foreign or colonial letters, to purchase postage stamps, and to have letters registered; and all other duties are performed as usual, except the issue and payment of Money Orders, which on that day are wholly suspended.

No Postmaster is bound to give change, or is authorised to demand change; and when money is paid at the Post-Office, whether as change or otherwise, no question as to its right amount, goodness, or weight can be entertained after it has been removed from the counter.

Except as regards foreign and colonial letters about to be prepaid in money, a Postmaster is **NOT BOUND TO WEIGH ANY LETTERS** or other packets for the public, though he may do so if his duty be not thereby impeded.

Facility would be given to the Post-Office in the discharge of its daily duties, and consequently benefit to the public, by a more careful and general attention to the following points:—

To post all letters and newspapers as early as practicable.

To make the address legible and complete, giving the name of the post town as well as the sub-office if it should happen to be directed to one; and if there be more than one post town in the kingdom of that name (but not otherwise), adding that of the **COUNTY.** Letters posted in one part of the United Kingdom and intended for another part (as, for example, letters posted in England and intended for Scotland) should have the name of the country to which they are sent added to the other part of the address. The number of the house, too, if in a street, is a great assistance. It must not be supposed that because a letter will eventually reach its destination without a number, the omission is not a cause of hesitation and delay in the process of sorting for delivery; and when such small delays occur again and again they tend greatly to retard the general distribution. In the case of letters for places abroad, the name of the *country* as well as the town or city should be given. Attention to this latter precaution will often assist in deciphering the name of the town or city, and will prevent the letter from being mis-sent when there are towns of the same name in different countries.

Every letter, newspaper, or other packet sent by post should be securely folded and sealed. It should be remembered that every such packet has to be several times handled, and that even when in the mail bag it is exposed to pressure and friction. Unless, therefore, the article be light and pliant it should be enclosed in strong paper, linen, parchment, or some other material which will not readily tear or break. Owing to neglect of these precautions many postal packets burst open, causing much trouble to the department and risk to the owners, it being sometimes impossible to determine to what packet a particular article belongs.

To prevent newspapers from slipping out of their covers, care should be taken to fasten the covers firmly. When for additional security the address is written on the newspaper itself, such address must, in case of retransmission, be cut off; otherwise the newspaper will become subject to letter postage. It is not sufficient that the old address be *obliterated*, as the rules forbid writing or marks of any kind in addition to the true address.

When money or any other article of value is to be transmitted through the Post, it should be sent either by means of a Money Order or in a registered letter. Any person who sends money or jewellery in an unregistered letter runs a risk of losing it.

The Postmaster-General, anxious to promote rapidity and correctness in the delivery of letters, has, for postal purposes, divided London and its environs into **TEN DISTRICTS**, each to be treated, in many respects, as a separate town; and, to render this arrangement effectual, he earnestly requests that every means may be taken by the public for causing letters to be directed *according to the district for which they are intended.* The initials of the district, as shewn in the following list, will suffice;

and in the direction of a letter these initials should be legibly written in a separate line, and should in all cases end the address, thus (the Western Central district being taken as an example):—

Messrs Coutts & Co.,
Bankers,
Strand,
London.
W.C.

If the initial letters be thus regularly appended, the Post-Office department will be materially aided in its endeavours to insure a rapid and correct delivery, and the public will derive a corresponding advantage.

TABLE OF DISTRICTS.

Names.	Initials.	Names.	Initials.
Eastern Central District	E. C.	South-Eastern District	S. E.
Western Central District.....	W. C.	Southern District.....	S.
Northern District.....	N.	South-Western District.....	S. W.
North-Eastern District	N. E.	Western District	W.
Eastern District.....	E.	North-Western District.....	N. W.

To enable persons in the country to follow this plan, a book containing the names of the principal streets, &c., in London and its environs, with the districts marked in which they are situated, may be had from any Postmaster.

UNDELIVERED LETTERS, &c.

When any letters, &c., remain undelivered, owing to the residences of the persons to whom they are addressed not being known, a list of the addresses is affixed in the window of the Post-Office to which they may have been sent, during the time (one week) they are allowed to remain there.

When the reason for the non-delivery of a letter, &c., is "Refused" or "Deceased," the letter, &c., is sent to the Returned Letter Office on the following Monday; and when the reason is "Not called for" (when addressed to a Post-Office), the letter, &c., is retained by the Postmaster one calendar month before being sent to the Returned Letter Office; except in the case of letters at seaports, addressed to persons on board ships expected to arrive at such ports, where the letters are kept three calendar months.

Every letter, &c., which is opened at the Returned Letter Office and found to contain the address of the sender, is sent back to him; but such as do not contain the sender's address are destroyed, except those which contain money or other articles of value.

ILLEGAL CONVEYANCE OF LETTERS—PENALTIES AND EXCEPTIONS.

By the 1st Victoria, cap. 36, sec. 2, any person illegally conveying letters incurs a penalty of £5 for every offence, and £100 for every week the practice is continued. The sender also incurs a penalty of £5 for every offence, with full costs of suit.

The following are the exceptions from the exclusive privilege of the Post Office, in the conveyance of Letters:—

1. Letters sent by a private friend, so as such letters be delivered by such friend to the party to whom they shall be directed.
2. Letters sent by a messenger on purpose, concerning the private affairs of the sender or receiver thereof; commissions or returns thereof, and affidavits and writs, process or proceedings or returns thereof, issuing out of a Court of Justice.
3. Letters sent out of the United Kingdom by a private vessel (not being a packet boat).
4. Letters of merchants, owners of vessels of merchandise, or the cargo or loading therein, sent by such vessels of merchandise, or by any person employed by such owners for the carriage of such letters, according to their respective directions, and delivered to the respective persons to whom they shall be directed, without paying or receiving reward or profit for the same in anywise.
5. Letters concerning goods or merchandise sent by common carriers, to be delivered with the goods which such letters concern, without payment for receiving or delivering such letters.

But the following persons are expressly forbidden to carry a letter, or to receive or deliver a letter, even though they shall not receive payment for the same:—

- a. Common known carriers, their servants or agents, except a letter concerning goods in their carts or waggons, or on their pack horses; and owners, drivers, or guards of stage coaches.

- b. Owners, masters or commanders of ships, vessels, steamboats, or boats called or being passage or packet boats, sailing or passing coastwise, or otherwise, between places within Great Britain or Ireland, or between ports within her Majesty's dominions or territories out of the United Kingdom, or their servants or agents, except in respect of letters of merchants, owners of ships, or goods on board.
- c. Passengers or other persons on board any such ships, vessels, steamboat, or passage boats.
- d. The sailors or others on board a ship or boat passing on a river or navigable canal within the United Kingdom or other her Majesty's dominions.

MONEY ORDERS.

The public are recommended, when applying for Money Orders, to use printed "Requisition Forms," which save time, and afford greater security, than verbal messages, against mistakes. These forms are sold by Postmasters at the rate of ten for one penny, or of five or any smaller number for a half-penny.

The commission on a Money Order not exceeding £2 is threepence, and on one above £2 it is sixpence; no order being granted for more than £5.

No order is allowed to contain a fractional part of a penny.

With the subjoined exceptions, no Money Order can be issued unless the applicant furnish, in full, the surname and one Christian name, both of the remitter (the person who sends the order) and the payee (the person to whom the money is to be paid), together with the remitter's address; and if the name of either party be tendered at greater length, it must be received and advised accordingly:—

1. If the particulars be furnished in writing (whether by filling up the blanks in the printed form or wholly in manuscript), it will not be necessary to give the Christian name in full; it will be sufficient if the first letter be given.
2. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient; and if a firm, the usual designation of such firm will suffice, except a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company," to which kind of company the above privilege does not extend.
3. When the remitter notifies in writing that the order is to be paid through a bank, it is left to his option to give or withhold the name of the payee.

When application is made for a Money Order payable in London, or any other town where there is a plurality of Money Order Offices, the remitter should say at which of such offices he wishes it to be paid, otherwise the order can be paid at the Chief Office alone. It is not, however, incumbent on a Postmaster to supply such information relative to local or provincial offices.

An order once issued cannot be cancelled; and should repayment or transfer to a different office or alteration of name be required, the remitter must apply to the Metropolitan Office, according to the direction given below.

When an order is received for payment (otherwise than through a bank), the Postmaster has first to see that the signature of the payee be as full as the name given in the advice, and be not in any way inconsistent therewith. He has then to call on the applicant to give the name of the remitter, and if the reply be correct, the order will be paid, unless the Postmaster have good reason for believing that the applicant for payment is neither the rightful claimant nor deputed by him. When an order is paid through a bank, it is sufficient that it be receipted (without regard to any discrepancy between the signature and the name in the advice, or to whether the receipt is given by the payee himself or by another person), and that it be presented (crossed with the name of the receiving bank) by some person known to be in the employment of the bank.

The holder of a Money Order is always at liberty to direct, by crossing it, that the order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus crossed, the question put on the presentation of an ordinary Money Order is dispensed with.

Money Orders do not require a receipt stamp.

Payment of an order must be obtained before the end of the second calendar month after that in which it was issued (for instance, if issued in January it must be paid before the end of March), otherwise the order becomes lapsed, and a new order will be necessary, for which a second commission will be charged. Any person presenting a lapsed order will be furnished with a copy of a printed notice headed, "Lapsed Money Orders," containing directions how to proceed. If the order be not paid before the end of the twelfth calendar month after that in which it was issued (for instance, if issued in January and not paid before the end of next January), all claim to the money will be lost.

No application can be entertained for compensation for alleged injury from the non-payment of a

Money Order at the expected time ; and after once paying a Money Order, by whomsoever presented, the office is not liable to any other claim.

Under no circumstances can payment of an order be demanded on the day of issue ; and as respects orders granted at minor offices, time must be allowed for the advice to pass through the Metropolitan Office.

In case of the miscarriage or loss of a Money Order, a duplicate is granted on a written application (with the necessary particulars) to the Comptroller of the Money Order Office of the kingdom where the original order was issued ; and by a similar application to the same officer, who (except as regards a temporary power to stop payment) can alone act in such cases, authority can be obtained to transfer the payment of an order from one office to another, or to stop payment, or to correct any error in the name of the remitter or payee, or to repay the money to the remitter. Every such application, however, must contain, in postage stamps, a second commission (namely, threepence for an order not exceeding £2, and sixpence for an order above that sum), though one commission will suffice even when, in the same application, more things than one, relating to the same order, are asked for ; as both the stoppage of payment and repayment to the remitter. Unless a sufficient reason be given for an exception, the application must be either from the remitter or payee. Whenever, on complaint being made, it is found that the necessity for an application entailing the payment of a fresh commission is attributable to the Post-Office, the stamps transmitted in payment of the commission will be returned ; and when it can be ascertained where the blame lies, the officer in fault will be required to pay the additional commission.

A Postmaster is required to give information how to apply for a duplicate order, &c., and must furnish the applicant with the prescribed form of application. Moreover, if payment of an order is refused in consequence of the replies to the questions respecting the remitter not corresponding with the entries in the advice, or of a difference in the name in the receipt, the Postmaster should advise the applicant for payment to communicate with the remitter, and request him to apply to the Comptroller of the Metropolitan Money Order Office of the kingdom in which the order was issued, enclosing in his application the additional commission (in postage stamps) chargeable for the alterations required.

No Letter Carrier or other servant of the Post-Office is bound to procure a Money Order for any person, nor to obtain payment for one ; but such services are not forbidden.

No Money Order business must be transacted on the Sunday ; but for the convenience of the labouring classes, the office must be kept open on the Saturday night till eight o'clock (or as near that hour as the despatch of the Mail will allow), except where the Surveyor shall consider such arrangement unnecessary.

Money Orders are issued and paid at the Chief Offices in London, Dublin, and Edinburgh, daily, between the hours of 10 a.m. and 4 p.m. A list of offices follow which receive and pay Money Orders, which it is hoped will be found useful.

The agents of the Post-Office in Malta and Gibraltar are authorised to *issue* Money Orders on the several Money Order Offices in the United Kingdom, which orders the Postmasters in this country are required to pay ; but no orders can be *drawn* upon the above-mentioned places.

FOREIGN AND COLONIAL LETTERS AND NEWSPAPERS.

GENERAL REGULATIONS.

Letters being now charged by WEIGHT in this country, as well as abroad, the British scale of progression is as follows :—

Not exceeding $\frac{1}{2}$ oz., one Rate.

Do. do. 1 oz., two Rates.

And two Rates for every succeeding oz.

The French and Belgian scale of progression is as follows :—

Under $\frac{1}{4}$ oz., one Rate.

Weighing $\frac{1}{4}$ oz., under $\frac{1}{2}$ oz., two Rates.

And one Rate for every succeeding $\frac{1}{4}$ oz.

Letters for France and passing through France are charged a combined rate for every quarter of an ounce, except such as are to be conveyed further by British packets, when they are charged the French rate for every $\frac{1}{4}$ oz. and the British every $\frac{1}{2}$ oz., according to the above scale. The subjoined table of Rates of Postage (page 259) will give all the information necessary for general correspondence ; and the table which precedes it, of the Despatches, can be easily adapted to any part of Scotland by referring to the Mail Routes, page 234.

PREPAYMENT.

Except as regards books (which must always be prepaid in stamps) and registered letters, prepayment outwards (that is, from this country to places abroad) may be made either in money or British postage stamps, but British postage stamps are not allowed to prepay letters INWARDS, the only admitted evidence of prepayment being the mark agreed upon with the particular foreign country or colony ; except that naval officers and seamen serving abroad may prepay such of their letters as are conveyed in their ship's bag, with English postage stamps. When prepayment is *optional*, any outward letter (that is, a letter posted within the United Kingdom, and addressed to some place out of it) posted with an insufficient number of stamps is charged with the deficient postage in addition ; unless the letter have to go to Belgium, or to a country through France, Holland, or the United States, in which case it is treated as wholly unpaid, the postal conventions with the latter countries not allowing the recognition of partial prepayment. When prepayment, however, is *compulsory*, a letter or ought else, posted with an insufficient number of stamps, or without being prepaid, is sent (by the first post) to the Returned Letter Branch of the Circulation Office. Unpaid letters addressed to or received from places in Turkey, Egypt, and Syria, at which France maintains Post-Offices, will be charged a rate of 9d. per $\frac{1}{4}$ oz. upon delivery, instead of 6d., the prepaid rate.

ROUTES.

When the route by which a letter, &c, is to go is not marked on it, it will, under ordinary circumstances, be sent by the route immediately following the name of the place in the list. Thus, a letter or newspaper directed to India, with no route marked on it, will be sent *via* Marseilles, and charged the higher postage attendant thereon.

DISTANCE TO WHICH THE POSTAGE CARRIES THE LETTER, &c.

The letter D prefixed to any division of the list (as that of letters or newspapers) shews that the postage there entered carries the letter, &c., from the place where it is posted in the United Kingdom to its place of destination. In all other cases the postage carries it only part of the way. The word "Free," as applied in certain cases to newspapers, &c., simply means that no charge is made upon them in this country.

REGISTRATION OF LETTERS.

By the prepayment of the usual British registration fee of 6d., letters can be registered between this country and the British West Indies, United States, Malta, Gibraltar, and Ceylon ; and by the prepayment of the British registration fee and the additional prepayment of a Foreign registration fee, letters can be registered between this country and France, and those countries through France to which the postage can be paid to destination, to Prussia, and to countries through Prussia. Moreover, by the prepayment of the British registration fees, letters can be registered between this country and Belgium and Holland, and countries through Belgium and Holland. Again, by the prepayment of the British registration fee, a letter addressed to any other place can be registered to

the port of despatch, and entered separately in the Letter Bill; it being in these cases left to the postal authorities of the Colony or Foreign Country to carry on the registration, or not, as they may choose. The British and Foreign registration fee on a letter to France, or to a country through France, is exactly as much again as the postage, *both British and Foreign*, whatever that may amount to. Thus, the joint British and Foreign postage on a letter to France weighing not more than $\frac{1}{4}$ oz. being 4d., the registration fee on such a letter would also be 4d., and if the postage amount to 8d., the fee is 8d. also.

The Foreign registration fee on a letter to or through Prussia (except to Russia) is 3d., without regard to weight; making a total fee, British and Prussian, of 9d., in addition to the ordinary postage. The fee on a registered letter to Russia, *viâ* Prussia, is greater by a sum equal to the Russian postage, which, on a letter not exceeding $\frac{1}{2}$ oz., is 3 $\frac{1}{2}$ d. The whole charge for a registered letter to Russia, *via* Prussia, or, as marked in the table, *viâ* Belgium (which latter country the letter first passes through), is entered in the table.

LETTERS BY PRIVATE SHIPS.

To most of the places entered in the List of Foreign Postage, letters may, if so marked, be sent by Private Ship, even when there is no entry to that effect in the Table. Letters may be sent by Private Ship, also, to many other places, the Table of Colonial and Foreign Postage being chiefly limited to those with which there is postal communication by regular Packets. To insure any letter, &c., being sent by Private Ship, the words "By Private Ship," or "By Ship," should be distinctly written above the address. Except where otherwise specified in the Table, the postage on a letter by a Private Ship is eight times the Inland prepaid rate; consequently, on a letter not exceeding $\frac{1}{2}$ oz. it is 8d., which postage must be prepaid.—Newspapers by Private Ships (*except those for Bremen, Hamburg, Lubeck, Oldenburgh, and Prussia, which are sent free*) are charged 1d. each.

LETTERS FOR WARM CLIMATES NOT TO BE SEALED WITH WAX.

The practice of sealing letters passing to and from the *East and West Indies*, and other warm climates, with wax (except such as is specially prepared), is attended with much inconvenience, and frequently with serious injury to the letters, in consequence of the melting of the wax and adhesion of the letters to each other.

In the case of Mails received from *India*, considerable delay is occasioned; and, notwithstanding the greatest care is taken in separating the letters which, owing to the cause already mentioned, adhere closely together, many are much damaged and torn. The public are, therefore, recommended in all cases to use wafers in preference to wax in securing their letters sent to *India*, or other warm climates, and also to advise their correspondents in those countries to pursue the same course.

NEWSPAPERS GOING ABROAD.

Newspapers sent abroad are liable to the same regulations as newspapers passing (under the newspaper privilege) between different parts of the United Kingdom, except that the name of the newspaper must have been registered at the General Post-Office; and that, instead of requiring to have an impressed stamp, each newspaper, if sent to a British Colony, is liable to a postage of 1d. (which must be prepaid by a postage label or in money), together with an additional postage (as shewn in the Table of Colonial and Foreign Postage) when the newspaper has to pass through a foreign country. In the same Table will be found the postage of newspapers sent to foreign countries. In all cases of newspapers going abroad the impressed stamp stands for nothing.

COLONIAL BOOK POST.

The regulations of the Colonial Book Post are similar to those for the Inland Book Post, and are as follows:—

1. The postage must be prepaid in full, by means of postage stamps affixed outside the packet or its cover.
2. Every packet must be sent either without a cover, or in a cover open at the ends or sides.
3. The packet may contain any number of separate books or other publications, prints, or maps, and any quantity of paper, parchment, or vellum (to the exclusion, however, of letters, whether sealed or open); and the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. Further, all legitimate binding, mounting, or covering of a book, publication, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books; and, in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto.
4. The packet must not contain any letter, closed or open, or any enclosure, sealed or otherwise closed against inspection, nor must there be any letter, or any communication of the nature of a letter, written or printed, in any such packet, or on its cover. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter.
5. No book-packet can be received if it exceeds two feet in length, width, or depth.
6. Any packet which shall not be open at the ends or sides, or shall have any letter, or any

communication of the nature of a letter, written or printed in it, or upon its cover, will be charged with letter postage.

7. If a packet be found to contain any letter, whether closed or open, or any enclosure, sealed or otherwise closed against inspection, or any other unauthorised enclosure, the letter or enclosure will be taken out and forwarded to the address on the packet, charged with full postage as an unpaid letter, together with an additional book-rate; that is, with the postage chargeable on a book weighing not more than half a pound. The remainder of the packet, if only prepaid with stamps, will then be forwarded to its address.
8. If a packet be not sufficiently prepaid with stamps, but nevertheless bear stamps equal to a single book-rate, it will be forwarded charged with the deficient book-postage, together with an additional book-rate; but any packet which shall not bear postage stamps equal to a single book-rate will be charged with the letter-postage.
9. No book-packet weighing more than three pounds can be sent to the East Indies or to New South Wales.
10. The Colonial book-post extends to those Colonies only which are so marked in the Table of Colonial and Foreign Postage.
11. In no case can a book-packet be sent to the Colonies (except at the letter rate of postage) through a foreign country.

LETTERS FOR NON-COMMISSIONED OFFICERS, SOLDIERS, AND SEAMEN IN HER MAJESTY'S SERVICE.

Subject to the subjoined regulations, non-commissioned officers, private soldiers, or seamen, whether serving on board her Majesty's Ships or Transports, on sea or land (in Foreign Parts), as also enrolled pensioners in Canada, can send and receive letters by direct Packet, Vessel of War, or Transport, for a postage of 1d.

1. The person claiming the privilege must at the time be actually employed in the service of her Majesty, or of the East India Company, and must not be either a commissioned or warrant officer, midshipman, or master's mate, the privilege not extending to these officers.
2. If the Letter be posted within the United Kingdom, the penny must be prepaid, as must any foreign postage that may be chargeable; and if sent by a private ship, the gratuity of one penny or twopence, as the case may be, to the captain, must also be prepaid. If posted abroad, prepayment is not compulsory, but if the letter be sent unpaid, it is on delivery charged twopence, together with any foreign postage or gratuity to a sea captain that may be due.
3. The Letter must not weigh more than half an ounce.
4. It must relate entirely to the private concerns of the soldier or seaman.
5. The name of the soldier or seaman, with his class or description, must appear in the direction, and the officer having the command must sign his name, and specify the ship or regiment, corps, or detachment to which the soldier or seaman belongs; the name of the ship or regiment being entered in full. The foregoing particulars must be given in one of the following forms:—

In other cases prepayment is not compulsory, unless the letter be registered. When a letter or newspaper, addressed to go by a route that requires prepayment, is posted unpaid, and there is some other route where prepayment is not required, it is sent by that route; but if there be none, it is sent to the Dead Letter Office, to be returned to the writer.

Newspapers must be posted within fifteen days after publication, and the postage prepaid. For exceptional rates, see page 257.

PRINCIPAL TOWNS AND OTHER PLACES IN DIFFERENT PARTS OF THE WORLD.

As little more than the countries themselves can be given in the Table of Colonial and Foreign Postage, this Alphabetical List of Places abroad is here inserted to assist the public in ascertaining the proper postage.

In the first column is placed the name of the province, city, town, or other place; and on the same line in the second column, the name of the country in which it is situated, or to which reference must be made, in the Table of Colonial and Foreign Postage, to find the proper postage. For instance:—Suppose a letter to be simply addressed to Genoa. It will be seen by referring to the annexed list, that Genoa is in Sardinia, and then by looking for Sardinia in the Table of Colonial and Foreign Postage, the postage to Genoa will be found.

And the following instruments shall be deemed and taken to be drafts or orders for the payment of money within the intent and meaning of this act, and of any act or acts relating to the stamp duties on bills of exchange, drafts, or orders, and shall be chargeable accordingly with the stamp duties imposed by this act, or any such act or acts, viz.:—

Exemptions from the Duties on Drafts or Orders.—All drafts or orders for the payment of money to the bearer on demand, drawn upon any banker or bankers, exempt from stamp duty at the date of the act 16 & 17 Vict. c. 59. These are drafts on bankers who shall reside or transact the business of a banker within the distance of fifteen miles of the places where such drafts or orders shall be issued. They must specify the place where issued, and bear date on or before the day on which they are issued, and not direct the payment to be made by bills or promissory notes. In reference to this exemption, the act 17 & 18 Vict. c. 83, § 7, provides that they shall not be remitted or sent to any place beyond fifteen miles in a direct line from the bank or place at which the same are made payable, or be received in payment, or as a security, or be otherwise negotiated or circulated at any place beyond that distance. N.B.—The duties on Foreign Bills, drawn out of the United Kingdom, are to be denoted by adhesive stamps. The amount of duty on adhesive stamps is impressed on two parts. The Board of Inland Revenue recommend that the cancellation should be on one of the parts, and the other left legible.

If a Foreign Bill payable abroad, and as to which the provision "drawn in sets of three or more" apply, shall be drawn in a single bill, the duty will be the same as on an Inland Bill, and if in a set of two, the duty on each will be the same as on an Inland Bill. This is in accordance with the opinion of the Board of Inland Revenue (see *North British Daily Mail*, 3d November 1854). But the Board have given an opinion that a Foreign Bill drawn abroad and payable in this country in duplicate or triplicate only represents one transaction, and is liable to the duty on one Inland Bill of the same amount,—that is, if one of the parts have the full duty, the others may be unstamped (see *Times*, 6th November 1854). The schedule of the act does not provide for such a Bill being drawn in sets. Bills bearing to be drawn out of the United Kingdom are to be deemed Foreign Bills so drawn, although they may in reality be drawn in the United Kingdom, 17 & 18 Vict. c. 83.

§ 4. A person in the United Kingdom drawing and issuing a bill payable out of the United Kingdom in a set, must draw the whole set, and a person transferring or negotiating such bill must transfer and deliver, stamped, the whole number of the set. Penalty £100. A person taking such bill must get the whole set, stamped, otherwise he cannot recover on it or make it available, ib. § 6. This applies only to bills drawn within and payable out of the United Kingdom.

INLAND BILL, DRAFT, or ORDER for the payment of any sum of money, though not made payable to the bearer, or to order, if the same shall be delivered to the payee, or some person on his or her behalf, the same duty as on a bill of exchange for the like sum, payable to bearer or order.

INLAND BILL, DRAFT, or ORDER for the payment of any sum of money, weekly, monthly, or at any other stated periods, if made payable to the bearer, or to order, or if delivered to the payee, or some person on his or her behalf, where the total amount of the money thereby made payable shall be specified therein, or can be ascertained therefrom, or shall be indefinite, the same duty as on a bill payable to bearer or order on demand.

RECEIPTS for money amounting to £2 or upwards,—1d.

The following provisions as to what shall be deemed a receipt, and the exemptions from receipt duty by 55 Geo. III. c. 184, are still in force.

Any note, memorandum, or writing whatever, given upon the payment of money, whether signed or not, shall be a receipt if it shall import or signify that any sum of money, debt, or demand, or any part thereof amounting to £2 or upwards, has been paid or settled; and like documents given upon payment by bills, drafts, promissory notes, or other securities for money, are also receipts.

According to decisions a simple acknowledgment of a sum of money in loan, or of the correctness of a debt, or of a deposit of money, is not liable to stamp duty, either as a receipt or promissory note. The judges held it essential to render a receipt liable to duty that something formerly due had been discharged. On this principle a receipt for a sum of money as a donation to a religious or charitable purpose, not being any thing formerly due, would not be liable. The Board of Inland Revenue have intimated that they are to regard such receipts as exempted.

Among the exemptions from receipt duty are—

Receipts written on promissory notes, bills, drafts, or orders for the payment of money, duly stamped.

Receipts written on any bond, mortgage, or other security, or any conveyance, deed, or instrument whatever, duly stamped, acknowledging the receipt of the consideration money therein expressed, or the receipt of any principal money, interest, or annuity thereby secured.

The exemption of letters by the general post acknowledging the safe arrival of any bills of exchange, promissory notes, or other securities for money is repealed by 17 & 18 Vict. cap. 83, § 13.

Note.—Stamps may be impressed or affixed. Where adhesive stamps are affixed, the granter is required to cancel the stamps by writing his name or initials on them. Penalty for omission, —£10. Penalty for removing adhesive stamps, or using them a second time, or doing any

fraudulent act to defraud of duty,—£20. (16 and 17 Vict. c. 59, § 3, 4, and 5.)

RESIGNATION.—Principal or original instrument of resignation, or service, or cognition of heirs, or charter, or sasine of any houses, lands, or other heritable subjects holding burgage; also instrument of resignation of lands, &c. not held burgage,—5s. Progressive duty,—5s.

SASINE.—Instrument of sasine given on any charter, precept of *clare constat*, or precept from Chancery, or on any wadset, heritable bond, disposition, apprising, adjudication of any heritable subjects not of burgage tenure,—5s. Progressive duty,—5s.

SCHEDULE OR INVENTORY of heritage or movables, or containing the terms of any proposed sale, lease, &c., or regulations for the cultivation and management of any farm, &c. separate from and referred to in lease, bond, deed, agreement, &c., chargeable with any stamp-duty not exceeding 10s.—the same duty as shall be chargeable on such lease, bond, agreement, &c., and where referred to in such, chargeable with a duty exceeding 10s.,—10s. Progressive duty,—10s.

SCRIP CERTIFICATE, after 4th August 1853, that is to say, any document denoting or intended to denote the right or title of the holder thereof, or any person to any share or shares in any joint-stock or other company, or proposed or intended company, or any certificate declaring or entitling the holder thereof, or any person, to be or become the proprietor of any share or shares of or in any such company, where such certificate, or the right or title to such share or shares shall be, or be intended to be, transferable by the delivery of such certificate, or otherwise than by deed or instrument in writing,—1d. (16 and 17 Vict. c. 63).

SETTLEMENT.—Any deed or instrument, whether voluntary or gratuitous, or upon any consideration other than a *bonâ fide* pecuniary consideration, whereby any *definite and certain* principal sum or sums of money, or any *definite and certain* shares in any stocks or funds, shall be settled or agreed to be settled upon or for the benefit of any person or persons, either in possession or reversion, either absolutely, or for life or other partial interest, or in any other manner whatsoever,—if such sum or sums, or the value of such share or shares, together, shall not exceed in the whole £100,—5s.

And if the same shall exceed £100, then for every £100, and fractional part of £100,—5s.

All such deeds which contain any settlement of lands or other property, or any other thing besides the settlement of such money or stock, shall be chargeable with such further duty as any separate deed containing such settlement of lands or other property, or other thing, would have been chargeable with, exclusive of the progressive duty.

And where there is more than one such deed chargeable with any such duty exceeding £1, 15s., one of them only shall be charged with the *ad valorem* duty; and also where any settlement shall be made in pursuance of any previous articles chargeable with and which shall have paid any such duty exceeding £1, 15s.,

it is not chargeable with the *ad valorem* duty; and the deeds not chargeable with the *ad valorem* duty shall be charged with the duty to which they are liable under any more general description in the stamp schedules; and on the whole being produced, duly executed and stamped, the latter shall also be stamped with a particular stamp for denoting the payment of the said *ad valorem* duty.

Exemption from this ad valorem duty.—Wills, testaments, and testamentary instruments, and dispositions *mortis causa*.

WRIT OF ACKNOWLEDGMENT by any person in feft of lands in Scotland, in favour of the heir or donee, of a creditor fully vested in right of an heritable security constituted by infestment,—10s. (16 and 17 Vict. c. 63, § 6.)

INVENTORY DUTY.

The duty is imposed on the inventory of the personal estate and effects of deceased persons, required to be recorded in the Commissary Courts according to the rates in the following table, and is regulated by the amount of such estate in Scotland. The same rates of duty are payable on probates and letters of administration in respect of the personal property situated in England and Ireland.

The inventory-duty is paid on the whole personal property in Scotland, and probate and administration duty on the whole personal property situated in England and Ireland without deduction of debts; but the Act 5 and 6 Vict. c. 79, § 23, provides for a return being given on proof of the constitution and payment of the debts owing by the deceased. This repayment must be claimed within three years; but the time will be prolonged on application to the Board of Inland Revenue. If there be any omission in the in-

ventory inferring payment of further duty, an additional inventory of such is required to be exhibited, by 48 Geo. III, c. 149, § 38; and § 40 provides that the same shall also specify the amount or value of the estate and effects of the same person comprised in the former inventory. By 16 and 17 Vict. c. 59, § 8, such additional inventory shall be *chargeable only with such amount of stamp duty* as, together with the stamp duty charged upon the former duly stamped inventory of the estate and effects of the same deceased person, *shall make up the full amount of stamp duty*, in respect of the total amount of all the estate and effects of the deceased specified in the said additional and any such former inventory. If the estate be over-estimated, or something improperly included, in the inventory, an inventory on a stamp corresponding to the value must be exhibited, and the original stamp will be allowed on affidavit as a spoiled stamp, within six months of the recording of the second inventory.

The husband or wife of the deceased is not chargeable with duty. If the legatee's husband or wife is of nearer consanguinity than the legatee, duty is payable according to such nearer relationship. (16 and 17 Vict. c. 51, § 11.)	10 0

This duty is payable for every legacy out of the personal or moveable estate, or out of or charged upon the real or heritable estate of the deceased, or out of any moneys to arise by the sale, mortgage, or other disposition of the deceased's real or heritable estate, or any part thereof: Also for the clear residue (after deducting debts, funeral expenses, legacies, and other charges first payable thereout) of the personal or moveable estate, whether the title to such residue shall accrue by virtue of any testamentary disposition, or upon a partial or total intestacy: And also for the clear residue of the moneys to arise from the sale, mortgage, or other disposition of any real or heritable estate, directed to be sold, mortgaged, or otherwise disposed of by any will or testamentary instrument.

Annuities are valued for legacy duty according to tables annexed to the Succession Duty Act.

Duty is not exigible on legacies or residues under

£20; but if a legatee take two or more legacies under any testament, which shall together be of the amount of £20, each shall be charged with duty, though each or either may be separately under that amount.

N.B.—Printed forms and regulations regarding all the succession-duties will be obtained gratis, on application at the Inland Revenue Office, Edinburgh; and at the offices of the distributors of stamps in the country.

SUCCESSION DUTY.—The duty commences on the death of persons dying after the 19th May 1853, and seems to be imposed on all property, both heritable and moveable, passing by death, not liable to the duty on legacies and successions to personal estate upon intestacy—the duty imposed by the Legacy Duty Acts. The duty on *heritable property* is charged on the annual value, after allowance of the necessary outgoings (§ 22), as an annuity for the life of the successor (§ 21), which is to be valued by tables annexed to the act.

Personal Property is liable to duty according to the value of the succession; and money charged on heritage—heritable securities—is chargeable as personality (§ 1.)

Rates of Succession Duty.

Lineal issue or lineal ancestor of the predecessor, —£1 per cent.

Brothers and sisters of the predecessor and their descendants, —£3 per cent.

Brothers and sisters of the father or mother of the predecessor and their descendants, —£5 per cent.

Brothers and sisters of a grandfather or grandmother of the predecessor and their descendants, —£6 per cent.

Any other person, —£10 per cent.

The husband or wife of the predecessor is not chargeable with duty (§ 18), and if the successor's husband or wife shall be of nearer consanguinity than the successor, duty is payable according to such nearer relationship (§ 11.)

The following are also *exemptions* from the succession duty:—

1. Successions from the same predecessor, passing on any death, not amounting in principal value to £100 (§ 18).
2. Any succession of less value than £20 in the whole (ib.)
3. Legacies and personal property charged with legacy duty, in respect of the same acquisition (ib.)

Note.—The collection of the succession duty forms a branch of the business of the Legacy Duty Department of the Inland Revenue. Forms of the accounts may be obtained at the Legacy Duty Office, Edinburgh, and at the offices of the distributors of stamps in the country.

DISCOUNT ON THE PURCHASE OF STAMPS.

Parties who may purchase *stamps* (except receipt stamps, labels for medicines, newspapers, and postage stamps) at London, Edinburgh, or Dublin, under the value of £10 each, but to the value of £30 or upwards in the whole, are allowed discount at the rate of 30s. per cent.—12 and 13 Vict. c. 80: and any person who purchases at the stamp offices of London, Edin-

burgh, or Dublin, stamps for *receipts* to the amount of £5 or upwards, or of any distributor or sub-distributor not within ten miles from said respective offices, to the amount of £1 or upwards, shall receive an allowance at the rate of £7, 10s. per cent.—no allowance for a fraction of a pound.—13 and 14 Vict. c. 97, § 18.

REGULATIONS AS TO EXCHANGING SPOILED STAMPS.

The solicitor's office, No. 5 in the Inland Revenue Office, is open for the allowance of spoiled stamps every Tuesday and Thursday, from twelve noon to 2 P.M. The distributors of stamps at the following places also receive spoiled stamps for allowance: Aberdeen, Ayr, Banff, Cupar-Fife, Dumfries, Dundee, Elgin, Glasgow, Greenock, Inverness, and Perth.

A supply of forms of affidavits is kept by the solicitor and the above distributors, and claimants may attend at the solicitor's office, and have the affidavits filled up and taken; or they may get copies of the forms, and take the oath before a Justice of the Peace, and afterwards lodge the affidavits and the stamps with any of the above officers. If the claim be admitted, a ticket is issued, stating that application is to be made for the new stamps after Thursday se'enight, and within six weeks from the date of the ticket. If not made within that time the claim will be forfeited.

The stamps, if belonging to parties resident in Edinburgh, or within ten miles thereof, must be presented for allowance within six months after being signed in the case of executed instruments, and six months after being spoiled in the case of unexecuted instruments. If beyond that distance, six months in the former, and twelve months in the latter case.

Bills or notes delivered to payees, or negotiated or issued in any way, and bills accepted or tendered for acceptance, cannot be exchanged, unless a new bill be produced, in all respects the same, excepting the correction of the error.

As to the exchange of sea policies of insurance, see 54 Geo. III. cap. 133.

Unsigned instruments are allowed, if inadvertently spoiled. Signed, if void in law from the beginning; from error or mistake, unfit for the purpose originally intended; from death or refusal to sign, of any person whose signature is necessary; from the want of the signature of some material and necessary party; from refusal to act under, or from non-acceptance—they shall be unfit for or fail of the purpose intended; or if the transaction be carried through by another instrument duly stamped.—See 53 Geo. III. cap. 108. In the case of transfers of stock signed by the seller alone, and other instruments if by one party, new deeds require to be produced to the proper officer of stamps, who, as to transfers, is instructed to certify in what particulars they differ from those spoiled.

Stamps of a different description may be obtained for any stamp spoiled if it be of the value of £6 or upwards. Application for this purpose to the commissioners of Inland Revenue should be lodged with the affidavit. The commissioners, by 3d and 4th Will. IV. cap. 97, sec. 19, may, if in their discretion they think fit, refund, in money, the amount of spoiled stamps. They are also authorized to repay the amount of stamps for which the possessor has no immediate use, if applied for within three months after being purchased. In both cases is deducted the percentage allowed by law on the purchase of stamps.

STAMPING DEEDS AFTER BEING SIGNED.

Beyond Twelve Months.—The duty, or deficiency of duty, shall be due and payable to her Majesty, and also the penalty of £10. The deed will only be stamped on payment of the whole or (as the case may be) the deficiency of the stamp duty remaining payable on it, over and above such duty, a penalty of £10; and if the whole amount of said duty or deficiency shall exceed £10, then, in addition to said duty and penalty, there shall be paid, by way of additional penalty, interest on the duty or deficiency at the rate of 5 per cent. from the date or first signing of the deed; but such interest shall not exceed the amount of the said duty or deficiency of duty.

Within Twelve Months.—If the deed shall be brought to the Commissioners of Inland Revenue within twelve months after the first signing or executing, in order to be stamped, it may be stamped without payment of the penalty, or on payment only of a portion thereof, provided it shall be proved to the satisfaction of the Commissioners that the deed was not duly stamped previously to being signed, by reason of accident, mistake, inadvertency, or urgent necessity, and without any wilful design to evade or delay the payment of duty.—13 and 14 Vict. c. 97, sect. 12.

Abroad.—If the deed shall be executed by any party abroad, it may be stamped without any penalty, if brought to be so within two calendar months from the time of being received in the kingdom, upon proof of the facts to the satisfaction of the Commissioners.—13 and 14 Vict. c. 97, § 13.

N.B.—Instruments are received at the Solicitor's Office, Inland Revenue, Waterloo Place, Edinburgh, and transmitted to London to be stamped, if within sixty days of the first date, on payment of the duty; if beyond that date, on payment of the duty and penalty. Parties, on applying, will be furnished with a Schedule, and after being filled up, it is to be presented, along with the instrument, at the Solicitor's Office, No. 5, Inland Revenue, between 10 and 12 o'clock, on Mondays and Wednesdays only. The amount of duty wished to be impressed on the instrument is to be inserted by the applicant before being presented at the Solicitor's Office; and afterwards he pays it, and the penalty, if any, to the Cashier, No. 3, Lobby. The instrument will be returned through the Warehouse-keeper, No. 2, Lobby, and it must be called for after eight days, and within twenty-one days from the date of its being lodged.

DOUBTS AS TO THE SUFFICIENCY OF STAMPS MAY BE REMOVED.

The opinion of the Commissioners of Inland Revenue as to the duty to which a deed, whether previously stamped or otherwise, is chargeable, may be obtained on the deed being presented at their office (Edinburgh) and a fee of 10s. paid. The duty or insufficient duty which the Commissioners may assess, and the penalty, if any, being paid, they shall stamp the deed with the duty so paid, and thereupon, and also in the case of the deed being previously sufficiently stamped, shall also impress the deed with a particular stamp to be provided for the purpose. The deed shall then be received in evidence notwithstanding any objection to it as insufficiently stamped. The provision does not apply to bonds or mortgages for unlimited amounts, nor instruments after being signed, prohibited from being stamped. The opinion of the Commissioners may be appealed against to the Court of Exchequer at Westminster, on the stamp duties assessed being paid, and 40s. for costs being deposited. (13 and 14 Vict. c. 97, § 14 and 15). The Commissioners may also adjudge on deeds not liable to any stamp duty; and if any duty is assessed the party may appeal. (16 and 17 Vict. c. 59, § 13).

N.B.—Instruments are received for adjudication at the Solicitor's Office, Inland Revenue, Edinburgh, on the same conditions as to duty and penalty as instruments to be stamped merely (*see above*). The mode of proceeding is as follows:—The sum of *ten shillings* for the adjudication stamp is first to be paid to the Cashier, No. 3, Lobby. Then the schedule (the duty to be impressed of course not being inserted in the schedule), the instrument after execution, and a full copy (written on foolscap paper) of it, are to be left at the Solicitor's Office, No. 5, on Mondays and Wednesdays, between 10 and 12 o'clock *only*. Between 10 and 12 o'clock on the Thursday following, a party, who can give explanation, must call on the chief clerk of the Solicitor's Department, No. 6; and he should be prepared to pay the proper duty, and penalty, if any, to the Cashier, No. 3, Lobby.

It is desired that there may be appended to the copy of the instrument, a table giving the substance (particularly dates and sums), of its clauses and provisions, and a reference to the page of the copy on which each commences.

DUPLICATES OR COUNTERPARTS.

Duplicates or counterparts of instruments requiring to be impressed with the denoting stamp to render them valid, may be lodged at the Solicitor's Office, No. 5, Inland Revenue, Edinburgh, between 10 and 12 o'clock on Mondays and Wednesdays only. A transmission of them is made once a-week to the Head Office. The principal

instrument, as well as the duplicate, must be lodged, and both must appear to be properly stamped, otherwise they will not be transmitted.

Mem.—The revenue takes no risk of loss or injury connected with the custody or carriage of the instruments received and transmitted to be stamped.

PERTHSHIRE.

This extensive county is divided, on the north, by the Grampian Mountains from the counties of Inverness and Aberdeen. The county of Forfar forms its eastern boundary; on the south it has the upper portion of the Frith of Tay, and the counties of Fife, Kinross, Clackmannan, and Stirling; from the latter it is divided by the river Forth; on the west it has the county of Argyle. This county possesses both a Highland and Lowland region, having some of the most fertile and best cultivated land in Scotland, and districts of the wildest and most rugged grandeur. The Carse of Gowrie, and much of the land round Perth, in Strathearne and Strathmore, is of the former description; while the districts of Atholl, Breadalbane, and the Stormont will realise the expectations of the most inveterate seeker after the picturesque. The area has been variously computed, and it is acknowledged that 1,625,000 acres is a low estimate of its extent, and nearly two-thirds of that is under cultivation or in pasture. The population (1851), 139,216, is considerably less than Forfarshire, which is not near the same extent; but this is to be accounted for that it has no large town except Perth, which has not one-third of the number of its rival on the Tay, Dundee. Its rate of increase during the last ten years has been 1 per cent., and during the preceding ten years it decreased 3 per cent. The valued rental in 1674 was 399,892 pounds Scots; and the value of all real property assessed in 1843 was above

£600,000; and the new valuation is £672,026. The city of Perth returns one member, the registered electors above 1100. The only other place that has a parliamentary representation, independent of the county, is Culross, which is joined to the Stirling burghs. The other towns, Crieff, Dunblane, Dunkeld, &c., are merged in the county, which returns one member, and has a registered constituency of 4287 voters. Principal mountains—Ben More, 3994 feet; Ben Lawers, 3945 feet; and also many others of inferior altitudes. Lochs—Tay, Earne, Rannoch, and Ericht; and the chief rivers are the Tay and the Earne, with their tributaries.

Lord-Lieutenant—Earl of Kinnoull.
Vice-Lieutenant—Henry Home Drummond of Blair-Drummond.

THE STANDARD LIFE ASSURANCE COMPANY was established at Edinburgh in 1825. The Acts of Parliament, 2 & 3 Gul. IV. cap. 81, and 8 & 9 Vict., cap. 75, have been granted for the purpose of its constitution and for the regulation of its affairs. It has been conducted with much success, and that result may be attributed not only to the extensive and influential connexions of the Company, but more particularly to the liberality of its dealings, and to the constant attention paid by the Directors to the adoption of improvements and facilities in connexion with the contract of Life Assurance.

PROGRESS OF THE COMPANY'S BUSINESS.

THE BUSINESS of the Company since its institution has increased steadily year by year, until it has attained its present large amount. In 1855, the Company transacted a larger extent of business than any other Office in Great Britain.

DIVISION OF PROFITS.

ONE DISTINCTIVE FEATURE in the STANDARD LIFE ASSURANCE COMPANY, the operation of which has contributed in a marked degree to the great success of the Institution, is the mode pursued in the DIVISION OF PROFITS among the Assured, and the Directors request attention to its peculiar advantages. The Divisions are made at intervals of *five* years, and the system is such that the greatest benefits are derived by those members whose Policies are maintained for the longest period; in other words, *those who pay most Premiums*. Persons who effect Assurances as a provision for their families, or from other prudential motives, can thus look forward to *increasing* advantages as they advance in life, each period of Division they may survive bringing additional benefits.

LIFE ASSURANCE.

THE system of the NORTH BRITISH INSURANCE COMPANY combines the benefit of Mutual Assurance with the safety of a large Protecting Capital, and thus affords all the facilities and advantages which can prudently be offered by any Life Assurance Office.

Parties may either assure a precise sum at a low rate of Premium, or, as in Mutual Assurance Offices, pay a higher rate, and have Periodical Returns in the shape of Bonus Additions to the sum insured.

NON-PARTICIPATING POLICIES may at any time be transferred to the PARTICIPATING CLASS on equitable principles.

DIVISION OF PROFITS.

The Books close for the next Septennial Investigation and Division of Profits on the 31st of December 1858.

BONUSES are considered additions to the sum insured, and share in the future Profits. Thus, for example,—

A Policy of £1000, having £285, 16s. of previously vested additions, was at last Septennial Balance, 31st December 1851, ranked as a Policy for	£1285 16 0
And had a further addition made to it at that date of	112 10 3

And will, according to the principle of division above mentioned, be ranked at }	£1398 6 3
next investigation, on 31st December 1858, as a policy for

LIFE DEPARTMENT.

THE conditions of the Policies now in course of being issued by this Company are not surpassed in liberality by those of any Institution of equal standing.

Assurances may be effected without Participation in Profits, on very advantageous terms.

Assurances with Participation in Profits are generally preferred for Family Provisions. According to the Contract of Copartnery, the affairs of the Company must be investigated at intervals not exceeding five years, and Bonuses are allocated to Policies of this class, in proportion to the amount assured by each, and the number of years for which Premiums have been received. Further additions are also made to Policies that become claims between two periods of division, securing, for such cases, advantages similar to those derived from Annual Investigations. The progress of this department of the business is highly satisfactory, a larger number of Participating Assurances having been issued by the Company during the Financial Year ended at 31st January last, than in any corresponding period of its history.

* * Copies of Prospectus, with every information and Forms of Proposal, may be obtained at any of the Offices or Agencies of the Company.

ABERDEEN, February 1857.

LIFE ASSOCIATION OF SCOTLAND.

CAPITAL, £400,000. | ANNUAL INCOME—(1857)—£120,000.

ESTABLISHED 1838.

EMPOWERED BY ROYAL CHARTER IN 1841, AND FURTHER BY SPECIAL ACT OF PARLIAMENT IN 1853.

THE ASSOCIATION, since its commencement, has twice received the sanction and approval of Government, after due inquiry into its constitution and the state of its affairs.

The Policy-holders of the Association incur none of the risks of Partnership. They are free from all responsibility, and the Sums assured are guaranteed.

The Regulations have been all adopted expressly with the view of reducing the expense of Life Assurance to the lowest scale consistent with permanent stability. This object has been effected mainly by the system of allocating the Profits—the share of each participating holder being handed to him every year (*in money*) at the time of payment of his Annual Premiums. The Annual Premiums are thus reduced to a comparatively small sum, Policy-holders having been for many years required to pay only 13s. per £1 of their Premiums: that is, instead of £20, a payment of only £13 has been required; instead of £10, £6, 10s.; and instead of £5—£3, 5s. The benefits of this system are afforded by no other Scotch Assurance Office.

The Policy-holders participate at the first Division of Profits after they have been five years on the books, and at every Annual Division thereafter. Until they participate in the Profits, they may keep up Policies of £500 and upwards by payment of only One-half the usual Premiums; the remaining half bearing interest, and being allowed to remain unpaid so long as the Policy-holders please—(*see Prospectus*). Under this system, Policies of £1000 may be secured at the following payments for the first year:—

AGE 30,	AGE 40,	AGE 50,	AGE 60,
£13, 2s. 6d.	£17, 2s. 2d.	£23, 4s. 8d.	£34, 7s. 9d.

The Rates for NON-PARTICIPATING ASSURANCES have lately been re-adjusted and reduced and One-half only of the first five years' Premiums need be paid. The following are the first payment under that system for Policies for £1000:—

AGE 30,	AGE 40,	AGE 50,	AGE 60,
£10, 13s. 6d.	£14, 5s. 3d.	£20, 8s. 3d.	£30, 5s. 6d.

During the last five years alone, there have been upwards of FOUR THOUSAND NEW ENTRANTS assuring their lives for nearly TWO MILLION POUNDS STERLING.

THE system followed by this Institution is that of purely MUTUAL ASSURANCE,—the Policy-holders being the only parties who are interested in the Funds or entitled to share in the Profits. The whole affairs are minutely investigated at intervals of seven years, when the Profits ascertained to exist are applied and allocated according to certain principles fixed by the Deed of Constitution. After the profits of the Society are ascertained, One-third at least is set aside as a Guarantee Fund—and the remainder is distributed amongst the Members entitled to participate therein, in proportion to the amount insured and the endurance of the Policy. At the last Periodical Investigation (which took place on 31st December 1852), the amount then appropriated for allocation amongst the Members—being £530,565—was shewn to be *more than the whole profits that had been realised during the previous seven years*. The Guarantee Fund, therefore, which was at the same time set aside in terms of the Deed of Constitution, had been altogether provided for out of previous profits, and without charge on that account against those who had more recently joined the Institution.

The share of Profits to which each Member is entitled may be applied either by way of addition to the Policy, or (where no legal impediment exists) by way of reduction in the future Annual Premiums, or the value paid over in Cash.

The extent of the Additions hitherto made to the Policies may be judged of from the following examples:—

	Year of Entry.	Age at Entry.	Amount originally Assured.	BONDS ADDITIONS at and prior to 31st Dec. 1852.	TOTAL AMOUNT PAYABLE (including Contingent Additions) in the event of Death after payment of the Premium in

The INVESTED FUND now possessed by the Society, which has arisen entirely from the accumulation of the Annual Contributions, amounts to very nearly

THREE MILLIONS STERLING.

And the ANNUAL REVENUE exceeds

THREE HUNDRED AND EIGHTY THOUSAND POUNDS.

THE ONLY OFFICE WHICH COMBINES THE BENEFIT OF PARTICIPATION IN THE WHOLE PROFITS WITH MODERATE PREMIUMS.

THE PREMIUMS, at early and middle ages, are about a fourth lower than in the other Mutual or Participating Offices. They are about as low as the *Non-Participating* rates of the Proprietary Companies,—which they admit of being, not only with safety, but with ample reversion of Profits to the Policy-holders, being free from the burden of Dividends to Shareholders.

The arrangement by which the Premiums are reduced to a rate commensurate with the risk, is obviously more suited for securing a competent family provision, in case of early death, than that which, by the same yearly outlay, secures a much smaller present sum, with the hope only of prospective and contingent additions. It will be born in mind, moreover, that the higher immediate assurance in this Office does not involve the sacrifice of the Member's interest in the Profits; but that, on the contrary, there is good ground for anticipating as large eventual additions for those who live to participate, as can be given on the system of the other Offices, notwithstanding their higher rates of premium.

Examples of Annual Premium to Assure £100 at Death.

Age 25	30	35	40	45	50
£1 18 0	£2 1 6	£2 6 10	£2 14 9	£3 5 9	£4 1 7

Thus, a person of 30 may secure £1000 at death, for a yearly payment of £20, 15s., which, if paid to any of the other Mutual Offices, would secure a Policy for £800 only, instead of £1000.

PROFITS.

The principle on which the PROFITS are divided is at once safe, equitable, and favourable to good Lives—the Surplus being reserved for those Members who alone can have made Surplus Payments; in other words, for those whose Premiums, with accumulated Interest, amount to the sums in their Policies.

The practical working of the system has been that, at the First Division of Surplus, Bonus Additions were made to the Policies which had come within the Participating Class, varying from 20 to 54 per cent. on their amount.

In all points of practice—as in provision for the indefeasibility of Policies, facility of Licence for travelling, or residence abroad, and of obtaining advances on the value of the Policies—the regulations of the Society, as well as the administration, are as liberal as is consistent with right principle.

Reports explanatory of the Principles, with every information, may be had on application at the Head Office, or any of the Agencies.

EDINBURGH, 12th Feb. 1857.

JAMES WATSON, Manager.

EDINBURGH LIFE ASSURANCE COMPANY.

THE FOURTH SEPTENNIAL INVESTIGATION AND DIVISION OF PROFITS

TOOK PLACE AT 31ST AUGUST 1856, OF

THE EDINBURGH LIFE ASSURANCE COMPANY,

THE results of which shew that, at all ages from 19 to 60, *on the earliest Policies*, the Accumulated Bonuses now range from upwards of £44 per cent. to upwards of £140 per cent. of the sums originally insured; and in one instance to upwards of £242 per cent., or nearly *two and one-half times more than the Sum assured*; thus giving the highest benefits to all *First-class Lives*.

To later entrants the results are, in proportion, equally satisfactory; the Bonus declared on all Participating Policies of the last seven years' endurance, averaging upwards of one and one-half per cent. per annum of the sums assured, and the gradually-advancing rate, as exhibited under each succeeding Declaration, affords the fairest prospect to all present and future Insurers, that these results will be maintained, until they also shall derive equally high benefits, when they become the oldest existing Policies of the Company.

An Intermediate Bonus, between one Investigation and another, affords all the advantages that may be supposed to accrue from Annual Divisions.

Liberal Resolutions connected with the conditions of the Policies of this Office make them, in every respect, a sound negotiable document, and in all Insurances for Family Provisions, or otherwise to protect the interest of Representatives, it may confidently be maintained, that in no other Life Institution can higher benefits be derived by all First-class Lives.

Copies of the Report by Mr James Brown, accountant, on the principles of the Company's Plan of Division, and the results of the recent Declaration, may be had on application at the Head Office and Agencies.

Prospectus, and Printed Forms of the Proposal and Declaration for effecting an Insurance, may be had, gratis, at the Head Office, or from any of the Company's Agents.

No Entrance Money, nor any charge beyond the payment of the Premium, in effecting a Policy.

BONUS ASSURANCE AT THE SMALLEST OUTLAY.

BY an entirely new adaptation of the Bonus System, the Directors are enabled to offer unusual advantages to all who wish to reduce, as much as possible, **THE COST** of Life Assurance. The Plan is fully explained in a Pamphlet issued by the Company, to which reference is made for detailed information respecting it.

SEVEN YEARS' HALF CREDIT ASSURANCE.

Under this system, Assurances can be effected at an outlay, during the first seven years, of little more than one-half of the ordinary Premium, and at a moderate rate thereafter, while the full Sum Assured will be paid at death. Full particulars and illustrations of the Plan will be found in a separate Pamphlet issued by the Company.

EXEMPTIONS AS REGARDS FOREIGN TRAVEL AND RESIDENCE.

Unrestricted liberty is granted from the outset to all Assured under Whole Life Policies, except Seafaring Persons, to pass by sea from one part of the world to another, without payment of Extra Premium.

Unrestricted liberty is granted from the outset to reside in many foreign countries, without payment of Extra Premium.

At the end of five years from the date of a Policy, liberty is granted to reside in any quarter of the world, without payment of Extra Premium, on the Assured shewing, at taking out the Policy, that they have no prospect then of going abroad, and provided they do not proceed thereto at any time within the above period of five years from the date of Policy.

SPECIAL PRIVILEGES GRANTED BY THIS COMPANY.

At the end of five years from their date, the Company's Policies (provided satisfactory evidence of age has been produced) are indisputable on any ground whatever.

When a Policy falls by non-payment of the Premium, from oversight or other cause, no advantage is taken thereof to deprive the holder of the Policy of its full surrender value; and special notice is given that the same will be paid, on application, within three months.

Policies are issued by the Company free of charge for Stamp-Duty, for Entry-Money, or for Medical Fees.

DIVISION OF PROFITS.

The Profits are divided **ANNUALLY**. Each Policy Holder participates therein **THE VERY FIRST YEAR HE ENTERS**. Each Policy Holder receives an **EQUAL SHARE** of the Profits, in proportion to the Sum Assured. The Profits may either be allocated as an addition to the Amount Assured, or the value paid **AT ONCE IN CASH**.

Copies of the Company's Pamphlets, Forms of Proposal, &c., may be had at the Offices, or from any of the Local Agents.

Chairman of the Company.

JOHN CRUICKSHANK, Esq., LL.D.,
Professor of Mathematics in the Marischal College and University of Aberdeen.

THE IMPORTANT ADVANTAGES offered by the Plan and Constitution of this Company are:—

The Protection of a large PAID-UP Capital, with the guarantee of an influential Local Proprietary, nearly 1000 in number, and

The moderate Fire and Life Rates, which are on the most economical scale consistent with perfect safety.

The ASSETS of the Company amount to £350,000.

The ANNUAL INCOME is nearly Two HUNDRED THOUSAND POUNDS.

In the LIFE DEPARTMENT, the number of existing Policies is upwards of FOUR THOUSAND.

The total amount Assured thereby, exceeds ONE MILLION SIX HUNDRED THOUSAND POUNDS.

It embraces a NON-PARTICIPATION SCHEME for those who prefer the present advantage of Reduced Premiums to a future Bonus.

And a PARTICIPATION SCHEME, which offers peculiar advantages to the Assured, the whole profits being divisible among the Policy-holders, while the expenses for management, and guarantee against risk, are restricted to ten per cent. on the Premiums paid.

FIRE INSURANCES

Effectuated at reduced rates.—Claims promptly and liberally settled.

Fire and Life Proposals and Tables of Rates may be obtained at the Head Offices or numerous Agencies throughout the Kingdom.

SPECIAL NOTICE.

THIRD DIVISION OF PROFITS.

THE unusual success which has attended the cautious yet energetic operations of this Company, has enabled the Directors to add Reversionary Bonuses to Policies on the participating class, averaging nearly 2 per cent. per annum on the sum insured, or from 30 to 100 per cent. on the Premiums paid.

Parties insuring with this Company do not incur the risk of Copartnership, as is the case in Mutual Offices.

Loans on Personal Security, for limited periods, are granted in connexion with Policies effected for the whole term of life.

ANNUAL INCOME UPWARDS OF £128,000.

The Funds or Property of the Company, as at 31st December 1855, amounted to £566,124, 2s. 6d., invested in Government and other approved Securities.

Assurers for Life, and on the regular scale, may leave Half the Annual Premium for the first five years unpaid, at interest, to be deducted eventually from the Policy, or paid off at convenience, whilst the Company have no claim for the arrears in the event of an Assurer wishing to discontinue his Policy; thus affording to parties desirous of effecting SHORT TERM POLICIES the advantage of having a Life Insurance at a scarcely increased outlay. This mode of payment affords the greatest facility and accommodation.

No Charge made for Policy Stamps or Entry-Money.

Fees for Medical Reports paid by the Company.

SCHOOL-ROOM MAPS.

CHART OF THE WORLD, <i>on rollers</i> ,	20s. 0d.
CENTRAL AND SOUTHERN EUROPE, ditto,	20s. 0d.
GENERAL MAP OF EUROPE, ditto,	7s. 6d.

NEW GENERAL ATLAS, 10s. 6d. Selected Ditto, 3s. 6d.	

The SCHOOL-ROOM MAPS constitute a Complete School-Room Atlas, affording the means of Teaching the Geography of every country in the world, according to the most complete Text-Books in Use; whilst the price is so low as to be scarcely half of that of an ordinary set by which the Geography of only a few countries can be taught.

ANCIENT SCHOOL-ROOM MAPS.

IMPERIUM ROMANUM, 6 feet by 4 feet 4 inches, <i>on rollers</i> ,	25s. 0d.
GRÆCIA ANTIQUA, 2 feet 10 inches by 2 feet 4 inches, ditto,	7s. 6d.
ITALIA ANTIQUA, 2 feet 10 inches by 2 feet 4 inches, ditto,	7s. 6d.

These Maps, containing all the Places of Note mentioned in Ancient Writers, and on a scale to be serviceable to a whole Class at once, will be found to serve all the purposes of a Complete School Classical Atlas; whilst they afford facilities for Teaching and Examination which no Atlas possesses. A Map of the *Imperium Romanum*, on a scale and in a style fitted for Schools, has long been a desideratum; and the care with which this has been prepared will, it is hoped, recommend it to the public.

* * The attention of Teachers and of the Public is respectfully requested to the SCHOOL BOOKS. The Elementary Books combine all the advantages of Classification with the agreeableness of promiscuous Reading Lessons; and the whole Series has been constructed with a special regard to the intellectual improvement of the Pupil.

A NEW AND IMPROVED EDITION OF

LIZARS' ANATOMICAL PLATES WITH SUPPLEMENT.

BY JOHN LIZARS, F.R.S.E.,

LATE PROFESSOR OF SURGERY TO THE ROYAL COLLEGE OF SURGEONS, AND LATELY SENIOR
OPERATING SURGEON TO THE ROYAL INFIRMARY, EDINBURGH.

THE SUPPLEMENT

Contains 10 PLATES, illustrating the Minute ANATOMY of the NERVES of the HEAD and HAND, the ANATOMY of the FEMALE BREAST, the ANATOMY of the MALE TESTIS, the ANATOMY of the MALE PERINEUM and PELVIS, and may be had separately, Price £1, 1s.

"These Plates are by far the best of the kind that we have seen."—*Lancet*.

"This is a splendid and uncommonly cheap work."—*Medical Repository*.

"An excellent System of Anatomical Plates."—*Westminster Review*.

"The Plates and the details are accurate."—*Medical Times and Gazette*.

"In addition to the other Plates, we have several new and instructive views of the male perineum and pelvis, bearing particularly on the diseases and injuries incidental to this part, conveying the most valuable information; and here we may assert our opinion, that no living surgeon is more competent than Lizars to afford practical instruction relative to the operative surgery of this region. We would say, the task has been well done, and the work should be in the hands of every student and teacher in surgery. The latter part of the 'Supplement' is peculiarly interesting, as bearing upon points of surgery by which Mr Lizars has greatly raised his fame; and the accuracy of the information here set forth may be best judged of, by a short extract from the Preface—thus, Mr Lizars writes—'My own attention for a considerable period has been engaged in investigating the diseased state of the urethra and perineum, connected with, and dependent upon, stricture of the urethra. My friend, Mr A. M. Edwards, has made very masterly dissections, exhibiting the normal condition of these parts; and I have to tender my best acknowledgments to Professor Goodsir for his liberal assistance in enabling me to produce such representations.'"

—*Dublin Quarterly Journal of Medical Science*.

Practical Observations on the Use and Abuse of

TOBACCO, SIXTH EDITION, greatly enlarged, with Extracts from King James' Counterblast, The Great Napoleon's First Lesson on Smoking, and the Works of Darwin, Prout, Pereira, Orfila, Cleland, Johnston, Brodie, Solly, Henderson, Mc'Cosh, and the Dictionnaire des Sciences Médicales. Demy 8vo. Illustrated with Coloured Plates. The Drawings after Nature. Price 1s.

In an able and conclusive letter of Mr Solly, of St Thomas' Hospital, London, in the *Lancet* of 7th Feb. 1857—headed "Tobacco Controversy—Is Smoking Injurious?" there occurs the following statement:—"I cannot conclude this epistle without acknowledging the valuable observations on it"—the Abuse of Tobacco—"by Mr Lizars, whose admirable pamphlet should be read by all smokers and young men thinking of it."—*Lancet*.

"Mr Lizars has said enough in this pamphlet to frighten cigar smokers out of their propriety, if not out of their cigar. King Jamie's Counterblast was a mere whiff to the cloud of testimony which Mr Lizars has blown against Tobacco . . . Snuffing, smoking, and chewing, are bad habits; and we advise any gentleman who is hopelessly abandoned to either to read the pamphlet, and should he still persist in the practice and get syphilis, have an attack of cholera, or become emasculated, he will deserve the affliction."

—*Medical Circular*.

Practical Observations on the Treatment of

CLUBFOOT, THIRD EDITION, with Additional Cases and Plates ; together with an APPENDIX. Demy 8vo, Price 1s.

"The successful results of Mr Syme's treatment of Clubfoot in dispensing with mechanical aid, have been ably shewn in the practical illustrations of Mr Lizars. The correct interpretation of *subsequent care* is here exhibited in Plate V. of Mr Lizars, 'Practical Observations on the Treatment of Clubfoot,' in which the unsuccessful case 'of Master J. B., after having been three times operated upon by Mr Syme, and only the boot Fig. 2 (a simple laced boot) put on' is represented ; and a complete cure of the same case by Mr Lizars' treatment is also figured."—*Extract from Lancet, November 17, 1855.*

BY THE SAME AUTHOR,

Practical Observations on the Treatment of

STRICTURE OF THE URETHRA AND FISTULA IN PERINEO, THIRD EDITION, Illustrated with additional Cases and new Drawings of these Affections ; with a copious APPENDIX, containing the Opinions of the most eminent London Surgeons and others on the Perineal Section, shewing that the operation has proved fatal in Edinburgh and London. Demy 8vo. Price 5s.

"I have witnessed," says he, "this perineal section performed several times, in the most able manner, but the patients have all died."—*Opinion of Mr ACTION on the Perineal Section—See Diseases of the Urinary and Generative Organs, 2d Edition, 1851, page 160.*

"We consider what is called Mr Syme's operation for the cure of Stricture to be the greatest opprobrium of surgery of the present day. Any surgeon who destroys the life of a patient by the performance of that operation, ought, in our opinion, to be indicted for manslaughter."—*Opinion of the EDITOR of the Lancet on the Perineal Section, in Lancet of 3d September 1853.*

"The Third Edition of a work already well known to the Profession, in which the method of treatment by Perineal Section has been made the chief matter for discussion. . . . The statements of Mr Lizars serve to corroborate the opinion which generally prevails, that the Perineal Section, in cases of permeable stricture, is an unsafe proceeding—one which does not promise to be effectual, and therefore unjustifiable."—*Extract from Medical Times and Gazette of 7th January 1854.*

"I believe, that the cutting operation for stricture, even when performed by the most skilful operators, is a dangerous proceeding. I believe, that when the records of such cases are given to the public, we shall be grieved with its fatality."—*Opinion of Mr SOLLY, Surgeon to St Thomas' Hospital, London, on the Perineal Section, see Lancet, 26th April 1856.*

A FEW TESTIMONIALS.

From HER MAJESTY THE QUEEN.

MEMORIALS OF JAMES WATT.—The Honourable Charles Grey has forwarded to the Secretary of the Watt Club the following acknowledgment of a copy of the "Memorials of James Watt," which had been sent for the acceptance of Her Majesty:—

"BALMORAL CASTLE, October 7, 1856.

"SIR,—I am commanded by His Royal Highness Prince Albert to acknowledge the receipt of your note of the 4th instant, with the accompanying very handsome copy of the 'Memorials of James Watt,' which you have been good enough to send for presentation to Her Majesty.

"Her Majesty cannot but admire the manner in which this volume is got up, and I am commanded to express the pleasure with which she accepts it for the Royal Library.

"I have the honour to be, Sir, your obedient Servant,

C. GREY.

"JOHN GRAY, Esq., Greenock."

The numerous illustrations of the above volume have been executed, save one, by Messrs Schenck & Macfarlane.

From THE ROYAL SCOTTISH SOCIETY OF ARTS.

REPORT OF COMMITTEE.—The Committee feel it incumbent upon them, in the strongest manner, to call the attention of the Society to the great energy with which Mr Schenck has prosecuted Lithography in Scotland, whereby he has secured for this part of the kingdom a large share of the employment which was formerly carried to London or abroad, and has carried out his practical application with such taste and skill as to have advanced it from a mere branch of trade, to take its place among the fine arts of the country.

JOHN CAY, Advocate, *Convener*.

From Dr ROGERS, Secretary of the Wallace Committee.

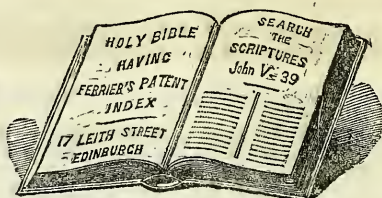

STIRLING, October 10, 1856.

DEAR GENTLEMEN,—I feel much interested in your admirable series of Lithographed Portraits. "Wallace" is a splendid representation of the oil painting of the Hero lately in my custody, and now the property of Sir John Maxwell, Bart. "Shakspeare" is a noble head, admirably executed. "Scott" is already known, and duly appreciated. The Portrait of "Burns" I shewed a few days ago to Mrs Begg, the surviving sister of the Bard, who emphatically pronounced it, after a minute examination, as "an extremely good representation" of her immortal brother. All the features of the Poet, Mrs Begg remarked, were most correctly delineated. The Portrait of the "Etrick Shepherd," I am authorised by his widow to state, is the best likeness of her husband which has ever appeared. I have only to add that a friend informed me that he saw M. Kossuth present a copy of your Portrait of him to M. Francis Pulski, Secretary of State during the Hungarian war, who, on receiving it, said, "This is a most admirable likeness of the Governor—the best that has been published."—Yours, &c.,

CHARLES ROGERS.

BIBLES.

FERRIER'S PATENT BIBLE INDEX, FOR FACILITATING THE PERUSAL OF THE HOLY SCRIPTURES.

THIS INDEX is one of the most useful aids for giving ready access to the Books of SACRED SCRIPTURE ever yet brought before the Public.

For SIMPLICITY and UTILITY it commends itself at first sight.

It neither increases the size nor disfigures the appearance of the volume; indeed, it is invisible when the book is shut, and becomes not only visible, but ornamental, when the book is opened, and possesses a wonderful self-magnifying property, whereby it enlarges itself to suit all eyes.

By means of this PATENT INDEX, any Book or portion of Sacred Scripture can be turned up almost as soon as named or thought of: whether for the STUDY, the PULPIT, the FAMILY, or the PEW, it will be found to facilitate a reference to the BOOKS OF SCRIPTURE to an extent that seems almost magical.

As this invention becomes known, NO PERSON WILL THINK OF PURCHASING A COPY OF THE BIBLE UNLESS IT POSSESSES

THE HISTORY OF THE HIGH SCHOOL OF EDINBURGH. By WILLIAM STEVEN, D.D., Minister of Trinity College Church and Parish, Edinburgh.

This work embraces much that is new regarding the lives and literary labours of the most eminent Masters of the School, as well as of persons of distinction and rank—including three Lord Chancellors of England—whom this ancient and flourishing seminary has had the honour to number among its pupils. A view is exhibited not only of the rise and progress of this leading Institution, but also of the general state of Classical education in Scotland for the last three centuries and a half. The Appendix contains many original papers; a Biographical Catalogue of the Teachers of the High School since the year 1519; Lists of the Medallists and Duxes; Engravings of the various School Buildings; Fac-similes of the Annual Medals, and of a Poem by Sir Walter Scott when a pupil.

"The Rev. Dr Steven has published a most valuable History of the High School, the object of which is to furnish to those who have been educated within its walls a pleasing record of events in which they themselves have acted a part; and, to the rising generation, a series of examples of men trained in the High School, who, by their talents and industry, have risen to the loftiest positions in the land."—*Report of Dr Schmitz, Rector of the High School.*

"This History records, in terms befitting the argument, the intellectual claims to eminence enjoyed by the Institution."—*Athenæum.*

Extract from Professor EADIE'S Critical Estimate of Dr KITTO'S Writings.

"Dr Kitto's last, and, in some respects, best work. It merits, and it has obtained, an immense popularity. The topics are selected with admirable skill, and are usually founded on some striking scene or novel adventure, some fact or sentiment, some attractive feature of character or remarkable incident in eastern life and enterprise. Each is told with a charming simplicity, surrounded with numerous and beautiful illustrations, and interspersed or closed with pointed and just reflections. He throws light, throughout the series, on many obscure allusions, says many tender and many startling things, opens his heart to the reader, as he unfolds the stores of his learning—all his utterances being in harmony with his avowed design, to make this work 'really interesting as a reading book to the family circle,' for which it is primarily intended. The interest never flags, dry detail is avoided, and the themes for the Lord's Day are in uniform keeping with its sacred character. These eight volumes are, in fact, the cream of all that Dr Kitto had previously written."

Second Edition, Fourth Thousand, in 8vo, with Portrait and Illustrations, 10s. 6d., cloth,

This Establishment affords great facilities, and saves much trouble and delay, to LAW AGENTS, FACTORS, BOOKSELLERS, MERCHANTS, and MEN OF BUSINESS in general; for, by one order to ROBERTSON & SCOTT, an Advertisement may be inserted in every Newspaper and Periodical in the Empire, at the same prices as charged by the respective Papers (with the exception of a few of the London and the Foreign Newspapers), *without any Commission or extra expense to the Advertiser*; their profit, as Agents, being from a Commission allowed by the Newspapers. SCOTTISH PRESS (EDINBURGH).

TUESDAY AND FRIDAY.—PRICE, STAMPED, 4½d.; UNSTAMPED, 3½d.—LIBERAL.
ESTABLISHED 1847.

CIRCULATES very extensively in the City and County of Edinburgh, and generally throughout Scotland. The last Parliamentary Returns shew that it rose in circulation, in 1854, fully a half, a progress unprecedented in the bi-weekly press. As an Advertising Medium, it is in advance of all its contemporaries, presenting, without exception, the largest sheet of Advertisements published in the Scottish capital. As most of those Liberal journals of a first-class, with which the SCOTTISH PRESS has hitherto competed, have abandoned their position to enter the lists with the low-priced papers, it now occupies, in a great measure, the field to itself as a leading Independent-Liberal Newspaper—unconnected with Party, Political or Ecclesiastical.

EDINBURGH MEDICAL JOURNAL,
PUBLISHED MONTHLY—PRICE 2s.

THE ORIGINAL COMMUNICATIONS consist not only of Contributions from Professors, Lecturers, and Practitioners of Medicine in Edinburgh and the North, but from able and numerous adherents of the Edinburgh and other Scottish Schools of Medicine, scattered over varied fields of observation in all parts of the world. Subsidiary to the department of Original Communications, a section is appropriated for recording "CASES," as subjects for after digest and generalisation.

In the CRITICAL department the leading work or works of the month are elaborately reviewed ; while, as respects other publications, comprehensive analyses are promptly inserted, so as to place the reader as nearly as possible in the same position as if he had cursorily perused the different works for himself.

The PERISCOPE in each month contains, as far as practicable, contributions in each division of Medicine and Surgery, an arrangement by which accumulations are prevented, and which epitomise without delay whatever is worthy of note in medical journalism, both at home and abroad.

In respect to MEDICAL INTELLIGENCE, the proceedings of Edinburgh and other Scottish Institutions continue to be prominently reported ; while faithful abstracts are given from time to time of the Transactions of Societies connected with other Schools. The Public Documents of Medical Bodies are also inserted for preservation and reference ; and Varieties likely to interest are freely introduced, but a strict abstinence from personal and local controversy is carefully maintained.

Throughout the whole conducting, whether in Original, Critical, or Selected matter, a practical aim and bias prevails, so that the practitioner may always rely on finding in the EDINBURGH MEDICAL JOURNAL an exposition of the soundest and latest views in the Science and Art of Medicine.

5 DUNCAN STREET, NEWINGTON,
March 1857.

THE GRANGE HOUSE SCHOOL,

(Near Newington,)

EDINBURGH,

FOR THE BOARD AND EDUCATION OF YOUNG GENTLEMEN.

Conducted by Mr DALGLEISH,

(During the last Twenty-four Years Head Master of Park Place Institution,)

And Mr W. S. DALGLEISH, M.A., University of Edinburgh;

With the Assistance of RESIDENT and VISITING MASTERS.

This Establishment will be OPENED in OCTOBER NEXT, for the EDUCATION of a LIMITED NUMBER of
RESIDENT PUPILS.

THE GRANGE HOUSE SCHOOL is designed to afford increased facilities for Educating Young Gentlemen of the upper ranks; to enable them to meet the higher requirements of the Scottish and English Universities; and, in particular, to prepare them, in accordance with the recent regulations of the Civil and Military Boards, for entering the Public Services at Home and in India.

The means of Instruction will combine supervision and training by Tutors, with a systematic course of daily tuition in Classes by experienced Professional Teachers. The prominence to be given to the services of Professional Teachers in the daily routine of the School will form a leading feature in its plans.

The number of Boarders to be admitted, while expressly limited so as to do justice to their individual domestic training, will at the same time be such as to secure a proper subdivision of the subjects taught, and the utmost efficiency in the means of conducting the Classes.

The Pupils will be classed in four general divisions—one *Preparatory*, and three *Advanced*—according to their respective ages and attainments. The number of Pupils in the Preparatory Division will not at any time exceed twenty-four. In each of the Advanced Divisions the number will be limited to sixteen.

The Curriculum of Study will embrace an extended course of instruction in Classics, Mathematics, English Grammar, Literature and Composition, Biblical Knowledge, the Elements of Logic and Mental Science, Natural History and Physical Science, History, Geography, Modern and Oriental Languages, Military Science, the usual Commercial Branches, Drawing, Music, Fencing and Gymnastic Exercises; with occasional Lectures in various departments of Literature, Science, and Art.

In the First or Preparatory Division, consisting of a Junior and a Senior Section, the course of study will be General,—the Grammar and Etymology of the English and Latin Languages being particularly attended to. In the subsequent Divisions, the instruction will be more immediately Professional; having specially in view the preparation of the Pupils for the Universities, for Mercantile pursuits, or for undergoing the Competitive Examinations of the Civil and Military Boards, as their Parents or Guardians, with the advice of the Head Master, may previously have determined.

In all the Courses of Study, Latin, Mathematics, English Literature and Composition, History, Geography, and the Modern Languages, will have a place.

In the University Course, particular attention will be devoted to the Higher Classics and Mathematics.

In the Mercantile Course, the English department, the Modern Languages, and the usual Commercial Branches, will occupy a principal place. This Course will also include Commercial Geography, and the Elements of Political Economy and Mercantile Law.

The Course for the Public Services will be nearly the same as that for the Universities. Greater prominence will, however, be given to English Literature and Composition, History, Modern Languages, and the Principles of Grammar and Comparative Philology; and in the case of Young Gentlemen destined for the Army, time will be afforded for instruction in Military and Engineering Drawing, Military Science, Geology, Mineralogy, and Experimental Science.

In the Advanced Classes for English, Mathematics, Classics, and the Modern Languages, frequent Examinations, conducted in Writing, will form an important part of the work of each Class.

In accordance with the leading design of the School, the stated Class-instruction will be confided exclusively to Professional Teachers from Edinburgh, of established reputation in their several departments.

The Private Studies of the Pupils will be superintended by Mr W. S. DALGLEISH, and a Staff of Resident Tutors, Graduates of Scottish, English, and Continental Universities.

Pupils, on entering the School, must not be above Fifteen nor under Eight years of age.

THE GRANGE HOUSE, a baronial residence, is situated about a mile to the south of Edinburgh,

and is consequently easily accessible to Masters professionally attending the School. The locality, in the centre of a well-sheltered district having a southern exposure, is widely known for its salubrity; and the Mansion-House, which occupies an elevated position, and affords ample accommodation for Seventy Resident Pupils, is peculiarly suitable for a Private Boarding and Scholastic Establishment of the highest class.

The enclosed Pleasure-Grounds, Gardens, and Park extend over several acres; and additional Play-ground can at any time be obtained in the immediate neighbourhood of the House.

Particular attention will be given to the Moral training of the Pupils, as well as to their Religious instruction—irrespective of denominational differences; and a high tone, in regard to both conduct and demeanour, will be maintained in all the departments of the School.

The Domestic arrangements of the School will be under the immediate Superintendence of Mrs DALGLEISH and experienced Assistants.

Mr DALGLEISH will devote his whole time to the inspection of the Classes, the individual training of the Pupils, and the direction of the general arrangements of the Establishment.

NAPIER'S GLASS COFFEE APPARATUS.

Exhibited at the Conversazione of the Institution of Mechanical Engineers, in the Gallery of Arts, Glasgow, 17th September 1856, by

**DAVID THOMSON, UNION CORNER,
GLASGOW.**

IN USING THE APPARATUS,

PUT the Ground Coffee into the Glass Jar. Pour BOILING WATER over it, either the whole quantity at first (if the Jar holds so much), or a part, as the operator pleases. Mix them together (with the perforated Disc or other object). Put a little boiling water into the Globe (so much as to cover its bottom, and prevent the flame of the Lamp from acting upon the glass alone, and cracking it). Light the Spirit Lamp. Press the Stopper end of the Metal Tube firmly into the neck of the Globe, allowing the perforated Disc to rest on the bottom of the Glass Jar. When the air is expelled from the Globe (which will be known by the bubbles ceasing to rise in the Jar), extinguish the flame of the Lamp, and the Liquid Coffee will soon pass over into the Globe. If all the boiling water was not poured upon the Ground Coffee at first, pour the rest over it now, either all at once, or gradually, as fast as it enters the Globe. When the Globe is full, withdraw the Stopper, and SLIDE the Globe round in its ring support (don't lift it off its support, nor burn your fingers by catching the thin part of the hot neck) in order to fill the Cups. Perform the operations in the order given above, it will save trouble till experience is gained.

THEORY OF THE PROCESS, &c.

A quantity of the air which fills the Globe must be expelled from it in order to make room for an equal quantity of the Liquid Coffee. This is managed by the heat of the Spirit Lamp underneath converting a very little water into a great volume of steam, which continues to fill the Globe while the Lamp is burning. During this process, the bubbles of expelled air are seen rising in the Glass Jar. When these cease rising it is known that *all* the air that was in the Globe has been expelled from it. The flame of the Lamp being now extinguished, the steam or vapour of water which now fills the Globe gets condensed into water again by the colder air surrounding it, and the space which the steam has just left becomes occupied by the Liquid Coffee, which ascends the Metal Tube. The perforated Disc at the end of the Tube soon gets covered with the Ground Coffee in the Glass Jar, and forms a filter-bed through which the Liquid Coffee must pass. The first, however, which passes into the Globe is somewhat muddy, if the expression may be

NAPIER'S GLASS COFFEE APPARATUS—continued.

used to Coffee; and this muddiness is greater when the quantity of Ground Coffee is so small as not to cover the perforated Disc sufficiently. This muddiness, however, very little affects the purity of the Liquid which immediately follows, as, being HEAVIER than the pure Liquid, and entering the Globe BEFORE it, it lies at the BOTTOM; and the TRANSPARENCY of the Globe, and its FORM, permits this muddy Liquid to be entirely avoided, the pure Liquid Coffee being easily decanted from above it. By making the Ground Coffee and water to revolve by stirring it in one direction, so as to make it whirl, just after the flame of the Lamp is extinguished, the Ground Coffee will be evenly heaped on the perforated Disc, and much less of the muddiness will enter the Globe.

From the foregoing description it is evident that no more air need be expelled from the Globe than the quantity of Liquid Coffee required, so that the Lamp may be extinguished when the operator thinks sufficient air has been expelled, and so the Fuel of the Lamp will be saved. Indeed it may frequently happen that the Lamp will not require to be lighted during the operation, for sufficient air can be expelled, by an expert operator, to fill about a fourth part (and even more) of the Globe, by merely pouring a certain quantity of boiling water into it, shaking it briskly, emptying it quickly, and quickly pressing the Stopper end of the Tube into the neck of the Globe. This Stopper must be so firmly pressed into the neck of the Globe as to prevent the air which has been expelled from entering till it has forced in the requisite quantity of Liquid Coffee,—for it is this air itself trying to get back to its old quarters, and by the same road along which it was expelled, that causes the Liquid Coffee to rise into the Globe: if it can more easily get in at the side of the Stopper it will do so. The Glass Globe requires to be very thin, as on this its safety from fracture, when strong or sudden heat is applied, entirely depends. A well-blown Globe—one whose neck and sides are equally thin—will stand any amount of boiling water suddenly poured into it; and with the ordinary care will last for years.

It will be found more economical not to pour all the boiling water upon the Ground Coffee in the Glass Jar at first, but to pour only a little in then, and keep pouring in the rest as fast as it enters the Globe. This completely washes the Ground Coffee, and extracts from it all that is PLEASANT and AGREEABLE, as may be easily proved by any one interested in the matter, by boiling or otherwise operating upon the Ground Coffee after it has undergone this washing process.

REMARKS ON COFFEE.

Buy the best Coffee, either the Raw Bean, and Roast it yourself—the Roasted Bean, and Grind it yourself—or, that which is the least trouble, buy the Coffee Ground as fine as possible, and keep it in a well-stoppered vessel (a wide-mouthed Green Glass Bottle, with a tight cork, is cheap and good); for, if not finely ground, the ordinary methods of preparation will be ineffectual for extracting its flavour; and if Ground Coffee be exposed to the air it diffuses its fragrance there, and becomes of little value as an article of diet. Coffee boiled for any time loses its delicious flavour, and also its exhilarating qualities. To preserve these, some such process as has already been described for the GLASS APPARATUS must be adopted; or, if it be desired to have all the astringent better along with the delicate flavour of the Aroma, the Grounds of a former preparation must be boiled, and the boiling Liquor poured over Fresh Ground Coffee, as recommended in "Lardner's Domestic Economy." Coffee at Railway Refreshment Rooms, &c., would be as refreshing there as at one's own home, if the delicious flavour were not dispelled by the boiling and reboiling which it constantly receives in order to be hot for every arrival.

For an account of the Coffee Adulterations and their modes of detection, see "Normandy's Commercial Hand-Book of Chemical Analysis."

THE GLASS APPARATUS will be found to possess all the properties necessary for easily making very excellent Coffee, in a very short time, and at very little cost. Made in one's own presence, or by one's self, the process is always interesting; and to the young mind many instructive lessons can be communicated by the GLASS COFFEE APPARATUS.

The Establishment will combine the advantages of Public and Private Institutions, with efficient Superintendence of Private Studies during the evening, under Masters experienced in their several departments.

Boarding Establishment FOR THE EDUCATION OF YOUNG GENTLEMEN,

PARK QUADRANT, WEST END PARK, GLASGOW,

CONDUCTED BY

MR ARCHIBALD MORRISON, M.A.,

HEAD MASTER OF THE GLASGOW COLLEGIATE SCHOOL

MR MORRISON has arranged to receive, by the 1st of AUGUST, a limited number of YOUNG GENTLEMEN as BOARDERS, to be educated at the GLASGOW COLLEGIATE SCHOOL, and whose morning and evening studies will be superintended by the Head Master, assisted by accomplished Resident and non-Resident Masters. The stimulus and discipline of a Public School of the highest class will thus be combined with that method and thorough preparation which can only be secured by Domestic Arrangements formed and carried out for the express purpose of promoting intellectual and moral improvement; and as both of these depend, much more than is generally imagined, upon a vigorous state of the bodily constitution, very great attention will be paid to the health and personal comfort of the Pupils—all the means of advancing which, such as bathing, exercise, recreation, and rest, at proper intervals, will be systematically employed.

CURRICULUM OF STUDY.

During the earlier years of a boy's attendance at school, his education should be of a perfectly general nature, as the general development of talent, and a knowledge of general subjects, ought to precede that special direction of the faculties, and the formation of those particular habits, which qualify a youth for acting with ease, promptitude, and credit, in a sphere which is distinct and peculiar. The education of each Pupil will, therefore, comprehend two courses of instruction,—the one elementary, general, and preparatory; the other advanced, special, and designed to complete his preparation for the discharge of particular duties.

ELEMENTARY COURSE.

The Elementary Course will embrace ENGLISH, LATIN, ELOCUTION, COMPOSITION, HISTORY, GEOGRAPHY, WRITING, ARITHMETIC, FRENCH, and the ELEMENTS of SCIENCE. Special attention will be paid throughout this course to GRAMMAR and ETYMOLOGY, and to the cultivation of a correct and forcible style of READING and SPEAKING.

ADVANCED COURSES.

The Advanced Courses will embrace three varieties, designed to prepare Young Gentlemen for Mercantile Life, the Universities, or for the Civil or the Military Service.

MERCANTILE COURSE.

The Course for Pupils intended for Business will comprise the ENGLISH LANGUAGE in all its branches—its Etymology, Structure, and application to the purposes of Written and Spoken COMPOSITION; GEOGRAPHY, with special reference to the Natural Productions and the Manufactures of different countries; HISTORY, Ancient and Modern; ARITHMETIC, Theoretical and Practical, including the best methods of Calculating, both Mentally and with the aid of the Pencil; WRITING, BOOK-KEEPING, MATHEMATICS, FRENCH, GERMAN, LATIN, NATURAL PHILOSOPHY, and the ELEMENTS OF LOGIC AND MENTAL SCIENCE.

UNIVERSITY COURSE.

The Course for Pupils preparing for the Universities will, in most respects, agree with the above, the principal difference between them consisting in the preponderance of attention which will be given to the Classics and Mathematics in the University Course, and to the Modern Languages and Practical Arithmetic in the Commercial.

[Continued.]

PARK QUADRANT BOARDING ESTABLISHMENT—continued.

CIVIL AND MILITARY COURSES.

The Courses for such as have the Civil or the Military Service in prospect will be the University Course, with the addition of such branches as may be necessary to qualify the Pupil for that department of the Public Service for which he is destined.

Particular attention will be devoted to the Religious Instruction and the Moral Training of the Pupils.

DOMESTIC ARRANGEMENTS.

The House is situated in the West End Park, at a short distance from the School, and commands superior advantages in relation to health and retirement; while the beautiful and extensive Grounds and Walks immediately in front and around it, afford a select and delightful retreat during the periods of relaxation.

The Pupils, whether within doors or without, will be invariably under the care of the Head Master, or of at least one of the Resident Masters.

Every Saturday will be a Holiday, and thus afford frequent opportunities for excursions to the surrounding country. To preserve the health and spirits of the Boys, several hours daily will be spent in recreation.

The Sleeping Apartments are large and well ventilated, and are furnished with every appliance for the promotion of health and comfort. Each Pupil will be provided with a separate bed, and the Masters will sleep in rooms adjoining those of the Pupils, a certain number of whom will be under the special charge of each of the Masters.

The Midsummer Holidays will include the months of June and July, and one Recess of Ten Days and two of Five Days each will occur at Christmas, the beginning of April, and the end of October, respectively. The Young Gentlemen will also be permitted to visit their friends in or near Glasgow on the last Saturday of each month.

The Session will begin on the 1st of August, and will end on the 1st of June. It will be divided into Four Quarterly Terms, commencing respectively 1st August, 16th October, 1st January, and 16th March.

A Quarter's Notice will be expected previous to the removal of a Pupil.

Prospectuses, detailing Terms, &c., may be had by applying to Mr MORRISON, Collegiate School, Garnethill, Glasgow.

The Royal Insurance Company.

The City Article of the LONDON TIMES, of the 24th July last, states that the transactions of the Royal Insurance Company "appear to have been of a perfectly satisfactory character." It includes the following statements confirmatory of that opinion:—

PREMIUMS.

The Premiums of Nine Offices enumerated are stated to be .. £824,924
Of which the Royal alone amount to..... 371,957
being 82 per cent. of the accumulated Premiums of the remaining Eight Companies.

EXPENDITURE.

The expenditure of Insurance Companies is, at present, attracting the anxious attention of the Public. The statement of "The Times," has elicited the following remarks from a contemporary:—"Here, again, the Royal Insurance Company occupies a position of honourable pre-eminence; for while its expenses of management, spread over a period of three years, *have been less than 20 per cent.*, those of five other offices, extending over an equal time—for we omit those which have been established within three years, or we might make a much stronger case—have varied from 22 to 74 per cent., and in one case have been as high as 111 per cent. on the receipts.

RESOURCES.

In like manner, the entire Funds in hand of thirteen offices is quoted, in "The Times," at £1,238,688, including the Royal which alone is £372,394, and which is, therefore, equal to 43 per Cent. *of the accumulated funds of the remaining twelve offices*; or, to make the VAST RESOURCES of the Company still more manifest, it may be stated that, putting aside the three largest offices named, (the funds of the greatest of which barely exceed *one-half* of those of the "Royal") *the united funds of the remaining ten offices do not equal the funds of this Company.*

The favourable position in which this Company is placed in "The Times" article, would have been even more prominently shown if the experience of other years than those taken had been selected.

As an instance, the following is the result taken from the accounts of the Company for the year 1855:—

Fire Premiums and other Receipts, not including Life	£149,812	13	7
Losses, Expenses, and Dividend.....	131,684	13	8
Balance as a Reserve from one year's transactions alone.....	18,127	19	11
Funds in hand, without including ample Reserve for Life Liabilities.. Upwards of	400,000	0	0

LIFE.

LARGE BONUS DECLARED 1855,
Amounting to £2 per cent. per Annum on the sum assured, being,
on ages from Twenty to Forty, 80 per cent. on the premium.

PERIODS OF DIVISION—EVERY FIVE YEARS.

The accumulated Expenditure of 54 Life Offices enumerated by The Times of 12th August last, compared with their amount of Premium and Interest, is stated to be 61 per cent.

The Expenditure of the Royal Insurance Company is only.....13 per cent.

NORTH AMERICA, a country so important from its vast area and the extent and value of its productions, and so intimately connected ethnologically and commercially with the several Countries of Europe, has hitherto been very imperfectly represented in its Geography. No adequate attempt has ever before been made to lay down, with anything like accuracy, the great physical features of this quarter of the Globe. Not only the imposing ranges of the Chippewayan or Rocky Mountains and the Pacific mountain chains, with their singular systems of Table-lands, Deserts, and Saline Lakes, but even the better-known Appalachian mountain zone of the Atlantic Coast, is represented in the latest American and European publications as in the Maps issued a quarter of a century ago.

The physical characteristics of North America, on which its climate, its products, its trade, and its peculiar institutions, depend, were either overlooked or misrepresented, and the want of a really good and trustworthy Atlas of Maps, representing the Country as it actually exists, and embodying the latest discoveries and rectifications, has been much felt in recent political negotiations and commercial enterprises. It was with a view to supply this deficiency that the present Work was projected, and it is owing to the circumstance of one of its Authors being resident in America, and in a position to secure, through the aid of the different departments of Government, and otherwise, all the requisite materials, that its accomplishment has been practicable.

The critical skill and labour necessary to examine, compare, and sift, the great mass of documents so collected, and produce from them an original series of Maps, projected, drawn, and engraved in the highest style of art, has involved a large outlay of capital, and the Publishers trust that their endeavours to furnish a Work unique in itself, and worthy of the subject, will be duly appreciated.

The Maps will be found to present the correct names and positions of places according to the latest census returns; the sea-board, as laid down in the elaborate Coast Surveys undertaken by the United States Government and the British Admiralty; the results of the recent Explorations to the Countries situated East and West of the Rocky Mountains; the Basin of the Great Salt Lake, and the gold-bearing regions of California; the recently-erected Townships of Canada; the States of Central America, with the British Colony of Belize, New Granada, the Isthmus of Panama, and a great amount of new matter, not found in other Maps, much of which has been obtained from personal Surveys and Researches, and from unpublished documents placed at the disposal of the Authors.

The Scale of the Maps is uniform throughout, thus affording every facility for estimating comparative areas; and great attention has been paid to the arrangement of names and the characters employed, so as to give prominence to important places, without crowding or confusion. The Map of the Free and the Slave-holding States of the Union, with the Tables in the Introduction, will, it is hoped, convey a clear understanding of the great question of Slavery in its Geographical and Statistical aspects, and the Plans of Cities and Sea-Ports will be, by many, considered a welcome addition to the Topographical Maps.

HISTORY OF THE BYZANTINE AND
GREEK EMPIRES, 716-1453.

By **George Finlay, Esq., Athens.**

"It is the most complete and elaborate history of the Byzantine and Greek Empires that has appeared in an English form."—*Leader*.

"At a time when so much attention is being devoted to the modern history of the Greek race, and to the constitution and history of the Greek Church, and when even our scholars are catching the enthusiasm, and insisting on the necessity of studying the modern Greek language and literature, Mr Finlay's solid and careful works will be welcomed by all who read to be informed."—*Athenaeum*.

"Mr Finlay's work deserves warm praise as a careful and conscientious performance. General readers might desire that their taste for 'interesting' details should have been provided for by the author. But the judicious and the scholarly will admire the severe abstinence that imparts a Doric severity to this manly and most creditable historical performance, which must confer no small distinction on its author's name."—*Press*.

Embracing a period in the annals of Scotland remarkable for the deeds of violence that were perpetrated in it, and presenting a picture of life and morality strongly contrasting with the results of modern civilisation, she has had a noble field within which to exercise her extraordinary talents for research, and has produced an historical narrative, unsurpassed, in point of interest and intrinsic merit, by any of those which have earned for her the high literary reputation she so deservedly enjoys."—*Morning Advertiser*.

JESSIE CAMERON: A HIGHLAND STORY.

By the **Lady Rachel Butler.**

"Those who read 'Jessie Cameron' will desire at once that Lady Butler should continue to write Highland stories. It is a sweet and tender tale, and proves, on the part of the writer, a knowledge of humble life and character which can scarcely exist without a heartfelt sympathy with the joys and sorrows of the poor. This sympathy is abundantly manifested in the romance of Jessie Cameron's loves and griefs and heroism—the heroism, the grief, the love, all equally touching, refined, unaffected. . . . FARM ACCOUNTS.

In royal 8vo, bound in cloth, price 2s. 6d.,

A PRACTICAL SYSTEM OF FARM BOOK-KEEPING;

BEING THAT RECOMMENDED IN "THE BOOK OF THE FARM"

BY HENRY STEPHENS, F.R.S.E.;

ALSO,

SEVEN FOLIO ACCOUNT-BOOKS, constructed in accordance with the system, Printed and Ruled throughout, and bound in separate volumes; the whole being specially adapted for keeping, by an easy and accurate method, an account of all the Transactions of the Farm.

THE ACCOUNT-BOOKS CONSIST OF—

I. CASH-BOOK—Ruled with double money-columns for *Dr.* and *Cr.*, showing the Cash received for produce sold off the Farm, the money paid on account of the Farm; and all general Cash and Banking transactions. Price 2s. 6d.

II. LEDGER—Ruled with single money columns, *Dr.* and *Cr.*, on separate pages, containing Accounts with every Person or Company having transactions with the Farm. Price 5s.

III. FARM ACCOUNT—Contains the Cash received for all the Produce sold off the Farm, and the Cash paid for all the commodities required for the Farm, and these alone. Thus the Balance between the *Dr.* and *Cr.* sides of the Farm Account, at the end of the Agricultural Year, shows whether the farm has returned or consumed the largest amount of Cash. Price 2s. 6d.

IV. CORN ACCOUNT—Comprises all accounts and statements connected with—1. Wheat; 2. Barley; 3. Oats; 4. Straw; 5. Potatoes; 6. Turnips, Mangold-Wurzel, Carrots and Parsnips. These accounts show all the particulars connected with the different species of produce—the time when grain is thrashed—the parties to whom it has been sold—the uses which have been made of it on the Farm—the Balance of Grain on hand at

any time in the Corn-barn and Granary—the weight of the Grain, and the prices obtained for it. Price 3s. 6d.

V. LIVE-STOCK ACCOUNT—Consists of Accounts relating to—1. Cattle; 2. Sheep; 3. Pigs; 4. Horses; showing the particulars of every species of Live-Stock, the disposal of them, the cash paid and the prices obtained for them, and the numbers on hand at different periods. Price 3s.

VI. LABOUR ACCOUNT-BOOK—Contains, 1. Labour Journal; 2. Labour Account,—the former for showing the Labourers' names, the days of the week on which they have been employed, and a register of the number of work-days in each week; the latter forming a summary of the amount of all the manual labour executed on the Farm in the course of a year, including the Harvest Expenses. Price 3s.

VII. FIELD-WORKERS' ACCOUNT.—This is a simple form of keeping the Daily Labour-Account, enabling the total number of Days in which work has been done for half a year to be summed up and calculated at the rate of wages per day, when the gross amount of the half year's earnings is brought out distinctly. Price 2s. 6d.

The Account-Books are sold separately, and the price of the complete Set, in Eight Volumes, is 24s. 6d.

ALSO,

A LABOUR ACCOUNT OF THE ESTATE.

This form of Labour Account is specially constructed for the use of Country Gentlemen, whether residing at home or abroad, who require returns to be made to them of the species of work which daily engages the time of their labourers in whatever capacity, and whether male or female; that is, besides Labourers and Field-Workers, the form is as well adapted to Gardeners, Foresters, Hedgers, Roadmakers, Quarriers, Miners, Gamekeepers, and Dairymaids. Price 2s. 6d.

"We have no hesitation in saying, that of the many systems of keeping farm-accounts which are in vogue, there is not one which will bear comparison with that just issued by Messrs Blackwood, according to the recommendations of Mr Stephens in his invaluable 'Book of the Farm.' The great characteristic of this system is its simplicity. When once the details are mastered, which it will take very little trouble to accomplish, it will be prized as the clearest method to show the profit and loss of business, and to prove how the soundest and surest calculations can be arrived at. We earnestly recommend a trial of the entire series of Books—they must be used as a whole to be thoroughly profitable—for we are convinced the verdict of our agricultural friends who make such a trial will speedily accord with our own—that they owe a deep debt of gratitude both to Mr Stephens and Messrs Blackwood for providing a method so complete and satisfactory to their hands."—*Bell's Messenger*.

"From experience we can strongly recommend this system to all actual and commencing agriculturists, combining, as it does, all the elements of utility with simplicity."—*The Field*.

"Mr Stephens is so thoroughly conversant with all that is essential to be set down in the Farmer's Account-Book, that it is something to find him induced to prepare a set of books for the agriculturist. These we find reduced by him to what must be regarded as the simplest and most essential element of a sound double entry system. . . . The ease and obvious accuracy of these books abundantly recommend them."—*Notts Guardian*.

INSTITUTES OF METAPHYSIC: THE THEORY OF KNOWING AND BEING.

By James F. Ferrier, A.B., Oxon.

Professor of Moral Philosophy and Political Economy, St Andrews.

"It is a pleasure to meet with a man who, in these days of half-beliefs and feeble assertions, will venture to speak thus strongly. It is a still greater pleasure to meet with a man of profound thought and astonishing subtlety, who is able to express the most abstruse meanings in the most simple language, and to scatter the light spray of wit and pleasantry over those abysses of thought which lead down to the terrible Domdaniel roots of the ocean. We find it difficult to mention any other English work on metaphysics, with even half its power of thought, which can be compared with it in point of style. 'The Institutes of Metaphysic' is indeed the most suggestive work on the subject that has been published for many a long year, and it is the most readable."—*Daily News*.

"The best practical book I have ever met with."—*Professor Johnston*.

"We assure agricultural students that they will derive both pleasure and profit from a diligent perusal of this clear directory to rural labour. The experienced farmer will perhaps think that Mr Stephens dwells upon some matters too simple or too trite to need explanation; but we regard this as a fault leaning to virtue's side in an instructional book. The young are often ashamed to ask for an explanation of simple things, and are too often discouraged by an indolent or supercilious teacher if they do. But Mr Stephens entirely escapes this error, for he indicates every step the young farmer should take, and, one by one, explains their several bearings. . . . We have thoroughly examined these volumes; but to give a full notice of their varied and valuable contents would occupy a larger space than we can conveniently devote to their discussion; we therefore, in general terms, commend them to the careful study of every young man who wishes to become a good practical farmer."—*Times*.

THE RURAL ECONOMY OF ENGLAND, SCOTLAND, AND IRELAND.

By Leonce De Lavergne.

Translated from the French. With Notes by a Scottish Farmer.

"Some years have elapsed since the appearance of a work on agricultural and social economy which combined in so large a degree as this volume great practical skill and theoretical knowledge, with the power of taking extended views and seizing the latent truths contained in the facts observed. Like all really profound works, the 'Rural Economy' of M. de Lavergne is larger than its professed subject; and those who only expect an exposition of English agriculture, will also find various social problems discussed and resolved, and a light thrown on several important economical questions. . . . When we consider the fulness of matter, the variety of information, the importance of the subject, and the vigour and picturesqueness with which the whole is presented to the reader, the 'Rural Economy of England' may be pronounced one of the best works on the philosophy of agriculture and of agricultural political economy that has appeared."—*Spectator*.

A New and Enlarged Edition of

THE PHYSICAL ATLAS OF NATURAL PHENOMENA.

By Alex. Keith Johnston, F.R.S.E., F.R.G.S., &c.
Geographer to the Queen.

Imperial Folio, half-bound morocco, price £12, 12s.

"There is no map in this noble Atlas upon which we might not be tempted to write largely. Almost every one suggests a volume of reflection, and suggests it by presenting, in a few hours, accurate truths which it would be the labour of a volume to enforce in words, and by imprinting them, at the same time, upon the memory, with such distinctness that their outlines are not likely afterwards to be effaced. The 'Physical Atlas' is a somewhat costly work, reckoning it only by its paper; but upon its paper is stamped an amount of knowledge that could scarcely be acquired without the reading of as many books as would cost seven times the price."—*Examiner*, August 12, 1854.

AN ATLAS OF ASTRONOMY.

A complete Series of Illustrations of the Heavenly Bodies, drawn with the greatest care,

Imperial Quarto, half-bound morocco, price 21s.

"For care of drawing, fulness of matter, and beauty of arrangement, we have seen no popular Atlas of Astronomy to compare with this volume. The names of Hind and Johnston on the title-page prepared us for a work of rare excellence; but our satisfaction on comparing its plates—so new, so accurate, and so suggestively shaded,—with the poor diagrams from which boys were expected to learn the starry sciences a few years ago, surpassed expectation. The illustrations are eighteen in number,—lunar, solar, stellar; and are so constructed as to present to the eye a series of lessons in the most captivating of human studies, simple in outline and cumulative in result. To say that Mr Hind's 'Atlas' is the best thing of the kind is not enough,—it has no competitor."—*Athenæum*.

THE CHEMISTRY OF COMMON LIFE.

By **James F. W. Johnston, M.A., F.R.SS. L. & E., &c.**

Author of "Lectures on Agricultural Chemistry and Geology," &c.

With 113 Illustrations on Wood, and a Copious Index.

"All will concur in admiring the profound thought which has ennobled so many familiar things, and has even tinged the commonest processes of household life with the hues of novelty and surprise. The work deserves to be universally read."—*British Quarterly Review*.

"By the simplicity and lucidness of language and arrangement he shows how thoroughly he is master of his subject, and how well qualified he is to open our eyes to behold the wonders of common life, while he conducts us into the laboratory of nature, where we may see her at her own workshop labouring for the good of man—balancing with consummate skill the various influences of air, and earth, and water, for the support of organised exertion. With such a pleasant guide none will refuse to enter into the mysteries of common things, nor spurn those valuable lessons deducible from his teachings."—*Dublin Mail*.

WORKS BY THE LATE HUGH MILLER.

The Testimony of the Rocks ; or, Geology in its bearing on the Two Theologies, Natural and Revealed. Post 8vo, cloth, with numerous Illustrations, price 7s. 6d., pp. 500.

This Work is mainly an elaboration of Lectures and Papers read before the British Association and other more popular audiences, and is fitted deeply to interest persons of a literary and scientific taste. Of the Twelve Sections or Lectures of which it consists, four, on “The Palæontological History of Plants and Animals,” and on “Geology in its bearings on the Two Theologies,” were delivered before the Philosophical Association of Edinburgh ; other four, treating of the Mosaic Record of Creation, and the Noachian Deluge, were also delivered to popular audiences ; the substance of two, on the Fossil Floras of Scotland, which are of a more scientific character, and contain “Contributions, representative of the patient gleanings of years, to the Geologic Records of Scotland,” was read before the British Association in 1855 ; and the remaining two, on “The Discoverable and the Revealed,” and “The Geology of the Anti-Geologists,” appear in print for the first time. The Lectures on the Geologic and Mosaic Records, and on the Fossil Floras of Scotland, contain the substance of the author’s studies for at least nine years, and are especially characterized by those peculiarities of thought and style for which their lamented author was distinguished. In the former, he has expressed different opinions on the Reconciliation of the Two Records from those which he once held, “having yielded,” he says “to evidence which I found it impossible to resist.” The other Lectures contain much that will interest the general reader and the man of science.

My Schools and Schoolmasters ; or, The Story of my Education.

Seventh Edition in preparation. Crown 8vo, cloth, price 7s. 6d.

"Although I have read not a few volumes on Education," says the author, "and dipped into a great many more, I never yet found in them the sort of direction or encouragement which, in working out my own education, I most needed." They said nothing on the best mode of teaching one's-self, and, "in my circumstances, I could not help deeming the omission a serious one. I have since come to think, however," he continued, "that a formal treatise on self-culture might fail to supply the want. Curiosity must be awakened ere it can be satisfied ; nay, once awakened, it never fails in the end fully to satisfy itself ; and it has occurred to me, that by simply laying before the working men of the country the story of my education, I may succeed in first exciting their curiosity, and next, occasionally at least, in gratifying it."

First Impressions of England and its People. Fourth Edition in preparation. Crown 8vo, cloth, Price 7s. 6d.

"The reader," says the author, "will find in the following pages scarcely any personal anecdote or adventure ; they here and there record a brief dialogue by the wayside, or in some humble lodging-house, and here and there a solitary stroll through a wood, or a thoughtful lounge in a quarry ; but there is considerably more of eye and ear in them—of things seen and heard—than of aught else. The journey of which they form a record, was undertaken purely for purposes of relaxation, in that state of indifferent health and consequent languor, which an overstrain of the mental faculties usually induces, and in which, like the sick animal that secludes itself from the herd, man prefers walking apart from his kind to seeking them out in the bustle and turmoil of active life—there to note peculiarities of aspect or character like an adventurous artist taking sketches amid the heat of a battle. They will, however, lead the reader who accompanies me in my rambles, considerably out of the usual route of the tourist, into sequestered corners, associated with the rich literature of England, or amid rocks and caverns, in which the geologist finds curious traces of the history of the country as it existed during the long cycles of bygone creations."

Scenes and Legends of the North of Scotland ; or, The Traditionary History of Cromarty. Third Edition, post 8vo, price 7s. 6d. pp. 482.

The greater part of this volume was written many years ago in leisure hours snatched from laborious employment ; and such is the change that has taken place during the lapse of one generation, that scarcely a tithe of the materials could be collected now. The stories which form a large part of this work, arranged as nearly as possible in chronological order, form a long vista into the past of Scotland, with all its obsolete practices, and all its exploded beliefs. They formed the traditionary literature of the districts in which the scenes are laid. "At one period of my life," says the author, "old greyheaded men, and especially old women, became my models ; persons whose minds, not having been pre-occupied by that artificial kind of learning which is the result of education, had gradually filled, as they passed through life, with the knowledge of what was occurring around, and with the information derived from people of a similar cast with themselves, who had been born half an age earlier. And it was not long before I, at least, thought I discovered that their narratives had only to be translated into the language of books, to render these as interesting as even the better kind of written

stories. They abounded with what I deemed as true delineations of character, as pleasing exhibitions of passion, and as striking instances of the vicissitudes of human affairs, with the vagaries of imaginations as vigorous, and the beliefs of superstitions as wild."

The Old Red Sandstone: or, New Walks in an Old Field.
Seventh Edition in preparation.

"There are formations," says the author, "which yield their organisms slowly to the discoverer in the proofs which establish their place in the geological scale more tardily still. I was acquainted with the Old Red Sandstone of Ross and Cromarty for nearly ten years ere I had ascertained that it is richly fossiliferous—a discovery which, in exploring this formation in those localities, some of our first geologists had failed to anticipate. I was acquainted with it for nearly ten years more ere I could assign to its fossils their exact place in the scale." In this work, Mr. Hugh Miller confines his observations chiefly to this formation and its organisms. "To none of the others have I devoted," he says, "an equal degree of attention; nor is there any formation which, up to the present time, has remained so much a *terra incognita* to the geologist. It will, however, be found that this hitherto neglected system yields in importance to none of the others, whether we take into account its amazing depth, the great extent to which it is developed both at home and abroad, the interesting links which it furnishes in the zoological scale, or the vast period of time which it represents."

The Whiggism of the Old School, as exemplified by the Past History and Present Position of the Church of Scotland. Demy 8vo, Second Edition, price 4d., pp. 32.

Memoirs of Frederick Perthes; or Literary, Religious, and Political Life in Germany from 1789 to 1843. From the German of CLEMENT THEODORE PERTHES, Professor of Law in the University of Bonn. 2 vols. 8vo, pp. 959. Third Edition.

Perthes was a celebrated German Bookseller and Publisher. Apart from the interest of a political and personal kind connected with his life, this biography will be found valuable as an exposition of the social, literary, and political life of Germany, from the first French Revolution till 1843. The subjects treated of are as manifold as those which engaged the German mind during that period. The domestic history of the chief actor introduces us to German character in its best aspects. The other parts of the biography may be said to contain a literary, ecclesiastical, and political history of the time, in so far as these could be gathered round the life of a single individual; and Perthes' nature was so broad, comprehensive, and impressible, that there is perhaps no prominent feature of the moral and intellectual life of Germany omitted. His connexion with leading politicians, and with eminent men in every department of knowledge, was various and wide. Much instructive correspondence with his most distinguished contemporaries is here for the first time presented to the public. The religious questions which agitated Germany, and which now occupy the minds of so many in this country, receive prominence throughout this biography, as they did in the life of the man.

This Work has passed through Two Editions since August 1856.

Deborah ; or, Fireside Readings for Household Servants.

With a Postscript for Masters and Mistresses. By the Rev. NORMAN MACLEOD, Minister of Barony Parish, Glasgow; author of "The Earnest Student," and "The Home School." Small 8vo, cloth, price 3s. 6d., pp. 210.

"At the request of a Servants' Institution in Edinburgh," says the author, "I delivered in that city, some time ago, one of a series of lectures to domestic servants. Several persons, servants among the rest, who had found my lecture useful to them, requested me to publish it. I have done so in the following pages; dividing it into chapters, considerably expanding its several parts, and adding a Postscript to Masters and Mistresses; with illustrative 'Extract Readings' from other writers on the same subject. . . . Society can never be held together but by the inward chain of Christian principle, and I humbly offer this small volume to aid in forging the link which binds master and servant."

The following extract from the Table of Contents will give some idea of the nature of the book:—Chapter I. The value of the Servant in God's sight.—II. The value of the Christian Servant to the Family.—III. The Old Family Servant.—IV. Servants of Christ.—V. The Master in Heaven.—VI. Postscript to Masters and Mistresses.—Note on Farm-Servants.—EXTRACT READINGS—embracing Extracts from Christopher Anderson; Rev. David Moore, D.D.; Rev. Thomas Scott, D.D.; Quarles; Baxter; Dr. Chalmers; and Miss Brewster—POEMS SELECTED FOR THE KITCHEN FIRESIDE—and FORM OF PRAYER FOR SERVANTS.

Doctor Antonio: a Tale. By the Author of Lorenzo Benoni.

Second Edition. Crown 8vo, cloth extra, price 4s., pp. 319.

Cheap Edition, Seventh Thousand, boards, price 2s. 6d.

The story opens with the chance residence of an English baronet and his daughter, during a month or two of the year 1840, in an inn beautifully situated on the sea-coast, in that part of the Sardinian States which lies between Nice and Genoa. In following the career of the central personage, the Author takes many opportunities of depicting Italian life and scenery, and eventually carries his characters into the very midst of the political events of Naples in 1848-49. First, the Sardinian States as they were in 1840, and next, the Kingdom of Naples as it was in 1848-49, and as it still is; this, together with a suggestion of all of Italy, and of that portion of Italian History that lies between these two points of space and time, forms the historical ingredient of the work. Apart from its character as a work of fiction, it is a book which cannot fail to give to British readers the kind of knowledge which is indispensable for a correct view of cotemporary affairs in Italy. By the device of making his hero, Doctor Antonio, a Sicilian by birth, and involving him in Neapolitan politics, the Author has contrived to tell the story of these events. In this part of his work, he drops the novelist, and becomes, for a time, the historian. The conclusion of the work contains a more full and exact account than has yet appeared in England, of the Poerio Trials, which formed the text of Mr. Gladstone's celebrated Letters.

The Wants of the Scottish Universities. 8vo, pp. 48, price 1s. 6d.

The author exposes the weak points of the Scottish University System and points to the remedies. He advocates the institution of a standard of admission, the appointment of Tutors, a final examination for degrees imperative on all going forward to the learned professions, and a combination of the four Universities for purposes of literary graduation.

These it of course comprises; following the most authentic Edition, and taking advantage of the Author's Manuscript Corrections, and of his frequent and important Additions;—but in the extensive literary remains of DUGALD STEWART, beside the Writings left prepared for the Press, there are others which have afforded valuable extracts, worthy of being incorporated in the already published Treatises,—or of being otherwise annexed to them.

Letters of John Calvin. Compiled from the Original Manuscripts, and Edited with Historical Notes, by Dr. JULES BONNET. Vol. I., large 8vo, price 10s. 6d., pp. 482.

Vol. II., in March.—To be completed in 4 Vols.

It was only a few days before his death, and in the course of one of the latest conversations handed down to us by Theodore Beza, that Calvin, pointing with failing hand to his manuscripts and the archives of the correspondence which, during a quarter of a century, he had kept up with the most illustrious personages of Europe, requested that these memorials might be carefully preserved, and that a selection from his letters should be presented to the Reformed Churches in token of the interest and affection of their founder. The request of the dying Reformer is only now fully complied with in the work of Dr. Jules Bonnet, of which the above is a translation, executed under his own immediate superintendence.

The collection of correspondence now being issued, is the result of five years' research among the archives of Switzerland, France, Germany, and England, and will contain 500 letters never before published. Intrusted by the French Government with a scientific foreign mission which afforded him an opportunity of gathering together many letters dispersed throughout the whole of Europe, the Editor has spared no pains in rendering as complete as possible a collection which cannot fail to cast a flood of light on the great religious Revolution of the sixteenth century.

The correspondence of Calvin begins in his youth, and is closed only on his death-bed (1528 to 1564). It embraces, with few intervals, all the phases of his life ; from the obscure scholar of Bourges and Paris, escaping from the stake by flying into exile, to the triumphant Reformer, who was able, in dying, to contemplate his work as accomplished. An epoch and a life of the most absorbing interest, are here reflected in a series of documents varied and genuine. He holds communion with Luther and Melancthon, Knox, Coligny, Condé, Jeanne d'Albret, and the Duchess of Ferrara, with Farel, Viret, and Theodore Beza. To us, his letters to King Edward VI., the Duke of Somerset, and Cranmer, are not the least interesting.

As regards Calvin's personal character, "our ambition," says the Editor, "has been to make Calvin live again in his letters—to show him as he was, with his austere and inflexible convictions, with the failings which were the heritage of his times, and those which were peculiar to himself."

Egypt ; Its Climate, Character, and Resources as a Winter Resort. By A. HENRY RHIND, F.S.A., &c. Small 8vo, cloth, price 3s., pp. 150.

Although the author has endeavoured to bring into notice many facts of interest to those who may wish to increase their acquaintance with the realities of eastern travel, this book is chiefly designed for those who require a warm winter climate. The object kept in view has been utility ; winter life in Egypt, and the climate, forming the chief topics in the work. Lord Haddo, Sir Gardiner Wilkinson, Dr. Abbott of Cairo, and Dr. Barclay have added to the writer's information regarding the climate, by furnishing him with their thermometrical notes and meteorological observations.

History of the Jewish Nation after the Destruction of Jerusalem under Titus. By the Rev. ALFRED EDERSHEIM, Old Aberdeen. Cr. 8vo, with Coloured Map of Palestine, price 7s. 6d., pp. 580.

This History commences with a sketch of Jewish history after the return from Babylon, and is continued down to the fifth century after the birth of Christ. The information embraced in this volume has hitherto lain scattered over a large number of books and pamphlets, and been partly buried in ancient and neglected records. The Author has endeavoured not only to give an impartial account of facts, but especially to describe the state of society, of trades, commerce, agriculture, arts, sciences, and theology, during the first centuries of our era. "It is my deliberate conviction," he says, "that Jewish history casts much light on the Evangelical accounts in the Gospels, on the Book of Acts, and on later Ecclesiastical History, both in its records of the spread of Christianity, and of the origin and development of heretical sects." Again: "A simple and impartial account of Judaism on the one hand, and a perusal of the Gospels on the other, constitutes one of the most convincing proofs of the Divine origin of the Christian religion, and of its organic connexion with that of the Old Testament."

Contents:—Chapter I. The Hebrew Commonwealth.—II. Closing Scenes of the Jewish War of Independence.—III. The Dispersed of Israel.—IV. Political and Religious State of the Jews after the Destruction of Jerusalem.—V. Internal History of the Synagogue, from the return of the Captives to the Destruction of Jerusalem.—VI. History of the Synagogue, from the Destruction of Jerusalem to the Jewish War of Liberation.—VII. The last Jewish War under Bar Cochab.—VIII. State of the Synagogue after the last Jewish War.—IX. Social Condition of Palestine.—X. Progress of Arts and Sciences among the Hebrews.—XI. Theological Science and Religious Belief in Palestine.—XII. The Patriarchate under the last Pagan Emperors.—XIII. Extinction of the Patriarchate, and Final Dispersion of the Jews.—*Appendix*—I. Jewish Calendar.—II. The Wisdom of Ben Sira.—III. Alexandrian Jewish Poetry.—IV. Geographical notions of the Rabbins.—V. Rabbinical Exegesis.

PRECURSORS OF KNOX.

I. *Patrick Hamilton*. By the Rev. P. LORIMER, Professor of Hebrew and Exegetical Theology in the English Presbyterian College, London. Crown 8vo, price 6s., pp. 267.

Until the appearance of this work, scarcely anything has been added to our knowledge of the first and most interesting of all our Scottish Protestant Martyrs since the account of him inserted by Fox in his *Acts and Monuments*! When the author of this work was collecting materials for a life of Alesius, he was fortunate enough to meet with a notice of Patrick Hamilton, which is embodied. The greatest libraries of Europe have also been searched through the kindness of friends, and a large amount of information regarding what might be called the Hamilton-period of the Reformation is here brought before the public for the first time.

There is also an Appendix of original documents which have never before been printed, and which will be found to possess considerable value in relation particularly to Scottish ecclesiastical affairs. A good deal is added to our knowledge of the men whom Hamilton directly or indirectly influenced—including Sir James Hamilton of Kincael, John M'Dowell, Robert Richardson, Alexander Alesius, and others.

David, King of Israel; the Divine Plan and Lessons of his Life. By Rev. W. G. BLAIKIE, A.M. Small 8vo, cloth, price 6s., pp. 439.

This is neither a purely scientific commentary nor a mere practical exposition, but aims at combining some of the properties of both. Practical utility is the end kept constantly in view, but in order to obtain the largest amount of that, a considerable number of historical, critical, and exegetical questions have been discussed, and made to throw light on the plan and lessons of King David's life. The greater part of what has hitherto been written on this subject, has been necessarily apologetic—a style by no means favourable for bringing out the positive lessons of a life abounding in materials for spiritual and practical instruction.

The author has endeavoured to give an aspect of unity and symmetry to King David's life, and to illustrate the progressive development of his views, character, and work, and, as far as possible, to present in due proportions the *many-sided aspects* of his mind. It has also been his object to vivify the scenes of David's life, partly by description of the scenery and manners of his country, and partly by making his outer life, as delineated in the history, and his inner life, as delineated in some of the Psalms, throw light upon each other.

Creation and the Fall: a Defence and Exposition of the First Three Chapters of Genesis. By the Rev. DONALD MACDONALD, M.A. 8vo, price 12s., pp. 488.

This is an attempt to deal philosophically as well as on scriptural grounds with the objections proceeding from various quarters, impugning the historical and scientific truth of the earlier chapters of Genesis. The Author had been induced to undertake this inquiry and defence by finding that little of a satisfactory kind was to be found in the works of the best-accredited writers; and by a belief that the hopes and fears of all who take an intelligent view of the bearing of learning and science on the Divine authority of Scripture, may be said to centre in a great measure on the early chapters of Genesis. "The first three chapters of Genesis,"

he says, "of which a Vindication and Exposition are attempted in the following pages, are pre-eminently important from their relation to the great questions involved in man's origin and primeval state. They comprise three distinct, but, as will be seen in the sequel, closely connected narratives, which, in whatever light they are viewed, have a peculiar bearing on the history and happiness of the human race, and on man's existing, as well as his original, relation to his Creator and Moral Governor. These narratives may be thus classified :—*First*, A view of creation in general, the origin of the earth and all things therein, from the lowest organization up to Man, constituted by the Sovereign Creator the head of the lower world ; *Second*, A more specific and detailed representation of the creation of man than is comprehended in the preceding epitome, with the circumstances, physical, moral, and social, amid which he was placed ; and, *Third*, An account of man's '*Fall*,' as it is called in theological language, or his transition from an original state of innocence and uprightness into sin, with the causes and consequences of this catastrophe."

The Earnest Student, being Memorials of the Life of the late John Mackintosh. By the Rev. NORMAN MACLEOD, Minister of Barony Parish, Glasgow. Small 8vo, cloth extra, with Frontispiece, price 6s., pp. 427. *Seventh Edition.*

This is the Biography of a Scotch Student, who, after studying at the Academies and Universities of his native country with distinguished success, entered Trinity College, Cambridge, and afterwards spent some time on the Continent, with a view to extend his acquaintance with the forms of religion and of life in other countries, before entering on the duties of a Minister. A general idea of the nature and objects of the Book will, perhaps, be best conveyed by quoting from the letter addressed by some of the friends of John Mackintosh to the Rev. Norman Macleod, requesting him to undertake the Biography of one who had been as distinguished for the ardour of his friendship, as for the zeal and earnestness with which he pursued knowledge.

"REV. AND DEAR SIR,—Ever since it pleased God to remove our dear friend, John Mackintosh, and to deprive us of his living example, counsels, and affectionate companionship, we have cherished the hope that a Memoir of him would be drawn up, with liberal extracts from his Journals and Correspondence, by which, though dead, he might yet speak to us. We understand that private diaries and memoranda of much interest exist, and that a large collection of letters might easily be made, breathing his beautiful and affectionate spirit, and full of sage reflections, and advice, and deep Christian experience, &c. &c."

Early Death not Premature; a Memoir of FRANCIS LEWIS MACKENZIE, late of Trinity College, Cambridge. With Notices of HENRY MACKENZIE, Scholar of Trinity College, Cambridge. By Rev. C. P. MILES, M.A., M.D., formerly of Gonville and Caius College, Cambridge ; Incumbent of St. Jude's English Episcopal Church, Glasgow. Pp. 368. Small 8vo, Cloth, with Portraits and Wood Engravings, price 6s. *Third Edition.*

The above Memoir of Francis L. Mackenzie, a Cambridge Scholar, has been compiled in deference to the wishes earnestly expressed by many of his friends and acquaintances. "It cannot be necessary," says the biographer, "to apologize for the endeavour here made to delineate the portraiture of a life, which, from infancy to the grave, was characterized by principles at once benevolent and holy." The

volume includes a notice of the elder brother Henry, a Scholar of Trinity College, Cambridge, and is illustrated by Busts of the two brothers, and of the late Lord Mackenzie, their father; also by several Wood-Engravings.

The News of the Churches and Journal of Missions. Published on the 1st of each Month Size, 32 Pages Large Quarto. Price 6d. each Number, or sent Post-free for 6s. per annum, payable in advance.

The object of the *NEWS OF THE CHURCHES* is to give full and accurate information as to what the various sections of the Church of Christ in different countries are doing, and how they are faring. It aims at being a sort of universal register, making Christians aware of whatever affects the honour of their common Lord, and the advancement of His cause, in the current history of the Churches and the nations. It interferes with none of the other religious periodicals of the day; while, from its nature, none of these can supply its place.

In the *Home Department*, information is given regarding all that is of catholic interest in the proceedings of the various Evangelical Churches in England, Scotland, and Ireland.

In the *Foreign Department*, monthly letters are given from Special Correspondents in France, Belgium, Holland, Sweden, Switzerland, Italy, Germany, Turkey, Canada, the United States, India, China, &c. These are supplemented by extracts from Foreign religious journals. A copious selection from the *MISSIONARY RECORDS* of Churches and Societies both in this country and in America is also regularly given.

In the *Literary Department* it is the aim of the Conductors to apprise their readers of the principal works of a religious kind that appear, and to give a general sketch of the progress of religious literature.

Typical Forms and Special Ends in Creation. By REV. JAMES M'COSH, LL.D., Professor of Logic and Metaphysics in the Queen's University in Ireland; Author of "The Method of the Divine Government, Physical and Moral," &c.; and GEORGE DICKIE, A.M., M.D., Professor of Natural History in the Queen's University in Ireland; and Author of a number of Papers on Zoology and Botany. Crown 8vo, cloth, with Woodcuts, price 7s. 6d., pp. 539. *Second Edition.* [Just Ready.

The principles now fully explained and illustrated in this work, were first brought before the public by Dr. M'Cosh in an article on Typical Forms in the *North British Review* for August 1851.

Since that article was written, Dr. M'Cosh, in conjunction with Dr. Dickie, has been prosecuting the subject; and they have laid the result of some of their scientific researches on the subject of the Forms and Colours of Plants, and the Forms of the Individual Bones of the Skeleton, before various learned societies, such as the Botanical Society of Edinburgh, the British Association for the Promotion of Science, in 1852 and 1854, and the Natural History Society of Belfast; while abstracts of their views have appeared in various scientific organs, such as the *Proceedings of the British Association*, the *Annals of Natural History*, and the *Edinburgh New Philosophical Journal*. His Grace the Duke of Argyll, President of the British Association, referred especially to these investigations in his opening Address to the Association at its meeting at Glasgow, in September last.

The Paragreens on a Visit to the Paris Universal Exhibition.

This is a humorous description of the doings and adventures of a Cockney family who had resolved to visit the Universal Exhibition at Paris. There are five illustrations by Leech. They are as follows:—En Route—Bivouac—Debut in Paris—Hero-Worship—Short but Instructive—The Exhibition—More Treats—The Escapade—Highly Confidential—Between the Cup and the Lip—Mysterious—At Corazza's—Jacques Bonhomme—Dinner in the Rue Las Cases—Catastrophe Number One—Catastrophe Number Two—Mrs. Paragreen to the Rescue.

Recollections of a Visit to the United States, and British Provinces of North America, in the years 1846, 1847, 1848. By ROBERT PLAYFAIR, Esq. Small 8vo, cloth, price 5s., pp. 266.

The Author states that he set out, free from prejudice, to judge for himself regarding all that he saw. Believing that the West may more and more become a place of resort to European tourists, he has given some account of charges at hotels, railroads, &c. He has also endeavoured to view the American colonies in reference to the advantages they offer to the better class of emigrants.

Conveyancing according to the Law of Scotland, being the Lectures of the late ALLAN MENZIES, A.M., Writer to the Signet, Professor of Conveyancing in the University of Edinburgh. In One Volume, Royal 8vo, Price £1, 11s. 6d. Pp. 876.

The Trustees of the late Professor Menzies, in presenting this volume to the public, have been chiefly influenced by the conviction that it will be found, in a great measure, to supply a desideratum that has for many years past been felt not less by the members of the legal profession at large, than by the successive classes of students, for whose benefit the Lectures were originally designed. The Lectures are accompanied by references (in the form of footnotes and an Appendix) to the recent important decisions of the Court of Session and the House of Lords. In the notes the attention of the student has also been called to several recent modifications of the Law—especially in the matter of bankruptcy.

I.—LITERARY AND SCIENTIFIC.

Memoirs of the Life, Writings, and Discoveries of Sir Isaac Newton. By Sir DAVID BREWSTER, K.H. Two Vols., large 8vo, with Portraits, &c., price £1, 4s. Vol. I. pp. 479; Vol. II. pp. 564.

In consequence of the wide circulation of the *Life of Sir Isaac Newton*, published in the Family Library in 1831, Sir David Brewster has been induced to undertake this larger work in order to give a more detailed account of Sir Isaac's Life, Writings, and Discoveries. To enable him to accomplish this, Sir David obtained access to Newton's manuscripts and correspondence in the possession of the Earl of Portsmouth at Hurstbourne Park. His attention has been particularly directed to such letters and papers as were calculated to give additional information regarding Newton's early and academical life. Considerable light has been thrown on the Fluxionary controversy, by the Author's having obtained, through the kindness of Lord Brougham, the collection of manuscripts and correspondence arranged by the late Mr. H. A. Fellowes. Much new information is also communicated respecting the history of the Principia. Sir David has likewise been enabled, by the possession of Flamsteed's letters to Newton, to defend the latter against the calumnies and misrepresentations of which he has been the subject. He has also been enabled to complete the correspondence between Newton and Halley, first published in its genuine state by Mr. Rigaud, to give publicity to the most interesting of the manuscripts in which Newton's Religious opinions are recorded, and to print for the first time letters of John Bernoulli, Varignon, Montmort, the Abbé Condi, Fontenelle, Pape, Brooke, Taylor, and the Earl of Halifax.

CONSTABLE'S MISCELLANY OF FOREIGN LITERATURE.

VOL. I.

Hungarian Sketches in Peace and War. By MORITZ JOKAI. Cloth, price 3s. 6d., pp. 320.

Jokai is one of the most popular of those Hungarian prose writers of fiction that sprang up a few years before the late war. His vivid descriptions of native life make him a great favourite with his fellow-countrymen. He is perhaps the most popular of Hungarian writers. Among the earlier of his productions, those best known are, a novel entitled "*The Common Days*," and a collection of minor tales published under the title of "*Wild Flowers*." The present volume has been written for the most part since the late memorable national movement, and embodies descriptions of several of the direst scenes in the civil war which devastated Hungary during the years 1848-50. The titles of the tales are—*Dear Relations*; *The Bardy Family*; *Crazy Maresa*; *Comorn*; *Mor Perczel*; *Gergely Sonkolyi*; *The Unlucky Weathercock*; *The Two Brides*; *The Brewer*; *The Szekely Mother*; *A Ball*.

VOL. II.

Athens and the Peloponnese, with Sketches of Northern Greece. By HERMANN HETTNER. Cloth, price 2s. 6d., pp. 229.

The first of the two parts into which this book is divided, is occupied with a description of Athens, ancient and modern, and with the discussion of questions con-

nected with Art and Classical Antiquity, suggested by the remains in the city or its neighbourhood. In the opening chapters, we have the Author's first impressions of the Greek capital, its environs and inhabitants, with the estimate he is led to form of its present state and prospects. Chap. IV. contains a description of the ceremonies usual on Good Friday, which introduce a comparison of the mode of the celebration of this festival according to the customs of the Greek Church, with the ceremonies anciently observed in the celebration of the Eleusinian Mysteries. The succeeding chapters are devoted, (with the interruptions of a "*Greek Court Ball*," and the "*Festival of the Theseum*,") to an examination of the Acropolis and its ruined edifices, the Propylæa, the Parthenon, the Erechtheum, &c. A chapter of general remarks on the Ancient Remains in Athens concludes the first division of the work.

Corinth is the prominent object of interest in the second part, the opening chapter being devoted to a sketch of this city. Chap. II., one of the most important in the work, takes up and offers a solution of the much debated question: "*How did the Ancients paint their Temples?*"

Leaving the Isthmus, Mr. Hettner wanders over the Plain of Argos into Arcadia. Messene, Bassæ, and the Temple of Apollo, are visited. In Chap. VI., at Olympia, the reflections of the Author are turned upon the Gymnastic, and its complement, the "musical" education of the ancient Greeks. "A day at the Monastery of Megaspilæon," and excursions to Marathon and Thebes, occupy the following two chapters. From Lebadea and the Cave of Trophonius, Mr. Hettner travels round Parnassus to Delphi, a description of which is presented in Chap. X. At "Chæroneæ," the last battle-field of ancient Greek freedom, the Author brings his account of his wanderings to a close; and the final chapter, "Retrospect," gives a *resumé* of his observations on the social and political aspect of affairs in the regions through which he has been travelling, and his opinion as to the agriculture and commercial future of "regenerated" Greece.

VOL. III.

Tales of Flemish Life. By HENDRIK CONSCIENCE. Cloth, price 3s. 6d., pp. 364.

The literature of the Netherlands has, during the last thirty years, shewn symptoms of a vigorous revival. Hendrik Conscience has acquired for himself the first place in this new literary school. His love of country has given direction to his genius, which he has devoted to the strengthening of national feeling among his countrymen, and of their instinctive opposition to foreign influence. With this object he has written historical novels and many tales illustrative of Flemish village life, a selection of which are now presented to the English public. The translations consist of—The Recruit, being the story of a Peasant Maiden and her Lover; Mine Host Gansendonck, a story, as its title suggests, of village life; The Poor Nobleman, a tale of a decayed Netherlands Family; and Blind Rosa, a village sketch.

Wanderings in Corsica: its History and its Heroes. By FERDINAND GREGOROVIVS. With Coloured Map of Corsica. 2 Vols., cloth, price 7s. Vol. I. pp. 326; Vol. II. pp. 300.

Mr. Gregorovius prefaces the account of his travels with a history of Corsica in two books. Commencing with the earliest obscure notices of the island, he conducts us rapidly through the periods of Roman and Feudal ascendancy, to the more modern portions of the story. The lives and adventures of the distinguished Corsican patriots, who, one after the other, were raised up to defend their country against invaders, among whom were Sampiero and the better-known Pasquale Paoli, occupy a considerable portion of the narrative. The remainder of the third book is occupied with the Author's impressions of Corsica and its People—Bastia—Geology and Botany of the Island—Learned Men—Statistics—Relation of Corsica to France. The first three chapters treat of the two most striking characteristics of the island,—the *Vendetta*, or, *Death Revenge*; and its consequence, *Bandit-life*.

Book IV. An account of the *Peninsula of Cape Corso*, and a sketch of the *life and character of Seneca*—*Seneca as Moralist, Rogue, and Hero*. Chaps. VIII. and IX., detail the Corsican *Marriage-customs*, and *Superstitions relating to Death*.

In Book V., the Author reaches Vescovato, and touches on the connexion of two remarkable personages with that town and with the island, viz., *Rousseau and Murat*. This is followed by sketches of the *scenery and peasant-life of the interior*, and details connected with the birthplace, life, and habits of the brothers *Paoli*.

Vol. II. sketches the "idyllic" western coast of Corsica, gives the story of *Vittoria Malespina*, and discusses the music of the Corsicans, and their popular poetry or "dirges," of which singular improvisations translated specimens are given.

Book VIII. is devoted to Ajaccio, and the Boyhood and Youth of Napoleon. *The Lonaparte Family*—*Boy Napoleon*—*Napoleon as zealous Democrat, &c.*

Book IX. makes us acquainted with the southern portion of the island; relates "*Stories of the Vendetta*;" modernizes the *Siege of Bonifacio*, by *Alfonso of Aragon*, from the antique chronicle of Peter of Corsica; and sketches the scenery of the "Straits."

In the tenth and last Book we return along the desolate coast by *Aleria*, the ancient colony of Sulla, and finally reach the once flourishing but now ruined *Mariana*, and then Bastia—the traveller's starting-point—thus completing the tour of the island.

Souvestre's style and powers, and that the first two Tales were translated at his own request;—the others after his lamented decease. The Tales are—The Bargeman of the Loire; The Lazaretto-Keeper; The Kourigan;

The White Boat; The Treasure-Seeker; The Groach and the Kakous; The Chouans; The Virgin's God-child.

VOL. X.

Tolla: A Tale of Modern Rome. By EDMOND ABOUT. Cloth,

price 3s. 6d., pp. 283. Cheap Edition, in Paper, price 2s.

In consequence of the discussion which has arisen in France regarding the originality of this tale, and the charge of plagiarism brought against its Author by more than one literary Journal, the Publishers have been desirous to obtain a copy of the Italian work from which M. About is said to have borrowed the charming narrative of TOLLA, in order that they might be enabled to inform the public to what extent he has availed himself of its pages.

They have been unsuccessful. Its disclosures were so dishonouring to an illustrious Roman family, that the edition was suppressed immediately after publication.

TOLLA, as stated by M. About in the concluding chapter of the work, is founded on incidents which actually occurred in Rome some eighteen years ago, of which a record was printed in 1841, by the father of the unhappy heroine; and the Publishers are informed by Messrs. Hachette of Paris, that M. About has raised actions at law for defamation, against the proprietors of those Journals which have ventured to assail his literary character.

Sappho: a Tragedy, by FRANZ GRILLPARZER. Translated by

L. C. C. Small 8vo, price 3s., pp. 143.

The Greek myth of Sappho's life, unhappy love, and sad fate, is here taken by the Author as the basis of a drama. It will not be considered as a departure from the simple statement of the contents and objects of the Messrs. Constable's publications, if a quotation is here introduced from a letter of Lord Byron to Moore, written after perusing the Italian translation of the above drama. "I have read the Italian translation by Guido Sorelli, of the German Grillparzer. With all allowance for a translation . . . the tragedy of Sappho is superb and sublime! there is no denying it. The man has done a great thing in writing that play. Grillparzer is grand—antique,—not so simple as the ancients, but very simple for a Modern."

Lorenzo Benoni; or, Passages in the Life of an Italian.

Illustrated by J. B.—Handsome 8vo, cloth, gilt, 12s., pp. 505.

Crown 8vo, cloth, gilt, 5s., pp. 326.

Cheap Edition,

Crown 8vo, 2s. 6d. pp. 326.

Though containing much of a political kind of profound interest to all who hope for Italy, Lorenzo Benoni is mainly autobiographical. It is a faithful transcript by a living Italian of the reminiscences of his own boyhood and youth, from the year 1818 to 1833. In the course of the narrative we are made acquainted with the social and political state of Piedmont at a time when it was the very stronghold of Italian despotism. The most prominent personages in the story, including the Author himself, were the chiefs of that band of young men, who, twenty years ago, raised the standard of Italian Nationality. Italian Character, and Domestic School and College Life in Italy, are depicted as these came within the extensive experience of the Author.

The Shady Side. By a Pastor's Wife. *Limp cloth*, price 1s. pp. 239. Also, cloth boards, price 3s. 6d., pp. 362.

This narrative relates the experiences and trials of the occupants of poor country livings. "If any scenes in this volume," says the Author, "seem to the reader to be drawn from fancy, he may be assured that they are the literal unvarnished incidents of veritable history." The shortcomings of Members of unendowed Churches in the practical recognition of their duty to their Pastors are here exhibited. It is by an arrangement with the Author that the Work has come into the Publishers' hands.

Life, Religious Opinions and Experience of Madame Guyon, together with some account of the Personal History and Religious Opinions of Fénelon. By THOMAS F. UPHAM. Edited by a Clergyman of the Church of England. With a Portrait of MADAME GUYON. Demy 8vo, cloth, price 7s. 6d., pp. 500.

In giving some account of Madame Guyon's life, the Author has made great use of her autobiography. After her return from Italy in 1686, La Combe, Madame Guyon's spiritual director, in accordance with the authority allowed him by his Church,—an authority to which she readily submitted,—required her to make a written record of her past life. This she did when shut up in the Convent of St. Marie in Paris. She proposed to make a selection of incidents, but La Combe, fearful that the delicacy of her feelings might tempt her to multiply omissions, required her to state everything. To this she at last consented, not anticipating that a biography written under such circumstances would ever be given to the public. The Author has added numerous facts derived from her writings and other sources. The latter portion of the work is occupied to a considerable extent with the acquaintance which was formed with Fénelon in the last years of her life.

2. *Sunbeams in the Cottage ; or, What Women may do ;* a Narrative chiefly addressed to the Working Classes. Third Edition. Crown 8vo, cloth, price 3s. 6d., pp. 220. *Also, CHEAP EDITION, Twenty-fifth Thousand, limp cloth, price 1s., pp. 121.*

In writing the above narrative, the Author had chiefly in view the working classes, whether in town or country. In the course of the narrative, the needs, the efforts, and the failures of these classes are sketched, and remedies suggested. Practical hints on the training of children and on domestic management, of a kind likely to be useful to the wives of operatives, are plentifully scattered through the work. The following are the headings of the chapters:—Mary Graham ; The Rowan Burn ; Woman's Influence ; Failures ; Events in the Village ; Cooking and Household Work ; Children ; The Factory Girl ; Going out to Service ; Contentment ; Village Children ; Religious Duty, &c. &c.

3. *Little Millie, and Her Four Places.* Crown 8vo, cloth, 3s. 6d. pp. 250. *Also, CHEAP EDITION, Twenty-fourth Thousand, limp cloth, 1s., pp. 164.*

The same practical objects are apparent in this as in the preceding publications. The Author, however, in this book addresses herself specially to Servant-Girls, whose hearts she wishes to reach, and whose approbation she principally wishes to gain. The volume consists mainly of an account of the experiences of one of their own number, written in the hope that a perusal of the warnings and encouragements conveyed, will profitably fill up a portion of the spare time of domestic servants, and that reflections on what they have read may occasionally cheer and animate the hours of labour. The first part treats of Little Millie's Four Places, and the temptations to which she was exposed in them ; the second consists of Little Millie's Extract Book, including the following subjects :—Charity ; Truth ; What little hands and hearts can do ; Hints to Young Girls going to Service ; and, Things to look at, and how to look.

4. *The Word and the World.* 16mo, paper cover, Sixth Edition, 2d., pp. 27.

The Missionary of Kilmany; a Memoir of Alexander Paterson, with Notices of Robert Edie. By the Rev. JOHN BAILLIE. Ninth Edition. Crown 8vo, cloth, with Frontispiece, price 2s, pp. 132. Limp cloth, price 1s., pp. 98.

This is an account of the Life and Labours of a Fifeshire Ploughman, who, brought when a boy under the influence of Dr. Chalmers, then Minister of Kilmany, was powerfully impressed by him, and became early distinguished for his earnest and pious disposition. With no higher education than that which is usually the lot of Scotch ploughboys, he devoted himself during his spare hours to Bible study, and to an effort to rouse in all with whom he came in contact a Christian spirit like that which animated his own life. In 1827 he was removed by Chalmers from field-labour to work as a City Missionary in the Canongate of Edinburgh. The above volume contains a record of his labours, of the methods he adopted, and of the success with which his efforts were crowned. Many interesting incidents of a City Missionary's life are narrated, and numerous letters from Dr. Chalmers occur throughout the volume.

Lessons for School Life; being Selections from Sermons preached in the Chapel of Rugby School during his Head-Mastership, by the Right Rev. A. C. TAIT, Lord Bishop of London. Cloth, price 5s., pp. 333.

By the title given to these Sermons, the Author has endeavoured to intimate what they contain. They were intended mainly for his pupils. The volume contains 27 discourses.

Biographical Sketch of the late Dr. Golding Bird, being an Address to Students, delivered at the request of the Edinburgh Medical Missionary Society, by J. H. BALFOUR, M.D., F.R.S.E., Professor of Medicine and Botany in the University of Edinburgh. Small 8vo, cloth, price 1s., pp. 67.

The Table-Talk of John Selden, with Notes by DAVID IRVING, L.L.D. Small 8vo, cloth, price 3s 6d., pp. 287. Also, cloth, antique, red edges, price 3s. 6d.

The Table-Talk of the illustrious John Selden, "*Britanniæ illud immortale decus*," originally appeared in 1689 under the following title:—"Table-Talk; being the Discourses of John Selden, Esq.; or, his sense of various matters of weight and high consequence relating especially to Religion and State" Dr. Irving published a corrected and annotated edition in 1819. In the Prefatory Notice he says, "Selden's Table-Talk has been frequently reprinted; but the Editor flatters himself, that in the correctness and elegance of its typography, the present edition will at least be found to equal any that has yet appeared. . . . The punctuation, which was so slovenly as to render many sentences unintelligible, has been rectified with much care and attention." In the edition now issued, many of the notes have been enlarged, and many more have been added. A MS. in the Advocates' Library, Edinburgh, enabled the Editor to amend several corrupt passages, and to supply words omitted in the previous editions. The Preface further contains valuable historical information of a biographical and literary kind.

II.—THEOLOGICAL AND PHILOSOPHICAL.

Intellect, the Emotions, and the Moral Nature. By the Rev. WILLIAM LYALL, Free College, Halifax, Nova Scotia. Large 8vo, price 12s., pp. 627.

The Author has had in view the construction of a complete Manual of Metaphysics or rather of Mental Philosophy—taking advantage of all the later *results* of philosophical inquiry. He touches, in their proper places, on the more important difficulties which are peculiar to each department of the science. The work is divided into three portions, treating of the Philosophy of the Intellect—of the Emotions—and of the Moral Nature, respectively.

Refutation of Spinoza by Leibnitz, recently discovered in the Royal Library at Hanover. With Prefatory Remarks and Introduction, by the Count A. FOUCHER DE CAREIL. Translated at his request by the Rev. O. F. OWEN, M.A., F.S.A., Rector of Burstow, Surrey. Small 8vo, price 3s., pp. 155.

Criticism in Germany has been much occupied with the question as to the connexion of Leibnitz with Spinoza—a question which involves also the determining whether Leibnitz was a Spinozist. Trendelenburg, Erdmann, Guhrauer, and Schulze, have taken part in this discussion. The above MS., of which a translation is here offered to that part of the British public which takes an interest in philosophical subjects, sets the matter completely at rest, containing refutations by Leibnitz of propositions taken not from this or that part of the Ethics, but *from all*. Mixed up with a collection of papers bearing the name of Wachter, it escaped research, until recently discovered in the Library of Hanover by Count A. Foucher de Careil.

The Doctrines of the Bible developed in the Facts of the Bible. With an Appendix, containing a Catechism on each Section, for the use of Families, Scripture Classes, and Schools. By the Rev. GEORGE LEWIS, Author of “The Bible and Breviary; or, Ritualism Self-illustrated,” &c. &c. Crown 8vo, cloth, price 5s., pp. 428.

“That Christianity is a religion of *historical facts*,” says the author, “is the answer to those who take offence at doctrinal teaching. Truths are not *reasoned* in the Bible; but manifested and exemplified for the instruction of mankind.” In imitation of this, the author proposes in this volume to view Christian doctrine in its *historical foundations*. Each doctrine brings its own evidence in its own class of historical facts; and points its own spiritual lesson. The author’s object is, by this method to establish those, whom our better methods of education are sending into life with more inquiring minds than formerly, in the beliefs and hopes from which Christian duty springs. Chap. I. treats of Jehovah in history. Chap. II. of Sin in history. Chap. III. of the Saviour and His work in history. Chap. IV. of the Holy Spirit and His work, as exemplified in history. Chap. V. of Prayer and its Power as illustrated in the Patriarchal and Jewish history, and in the life of Christ. Chap. VI. of the Sinner’s return to God. Chap. VII. Anticipations of the life to come. Chap. VIII. of the historical names of Christians. The concluding chapters belong rather to the

evidences than to the doctrines of our faith—treating of the harmonies and mysteries of the Bible. Chap. XI. contains a summary, or a **FACT CREED**. There is appended a catechism on each chapter and section, designed for use in more advanced religious classes.

III.—ILLUSTRATED WORKS.

The History of the Life and Death of Sir Thomas Thumb, with divers other matters concerning the Court of good King Arthur of Britain. By the Author of "The Heir of Redclyffe," "Heartsease," "The Little Duke," &c. With Numerous Illustrations by J. B., designer of Photographic "ILLUSTRATIONS OF SCRIPTURE BY AN ANIMAL PAINTER," &c. Handsome Square 8vo, Cloth, Gilt, price 7s. 6d., pp. 142.

"In the proposal to draw up a life of TOM THUMB," says the Author, "to accompany the graceful Illustrations of this little book, the attempt would have seemed a presumptuous interference with nursery classics, had it not appeared, on examination, that he, unlike his companions in fireside mythology, has never been the theme of any cultivated mind, but has been left to the unpoetical English tradition.

"Thus the field appeared to be open to an endeavour to weave the traditional mishaps of the pigmy-knight into a tale that might be free from the former offences against good taste ; to do, in fact, what Perrault did for Blue-Beard.

"The Notes may perhaps be thought over numerous, but they were added with the desire of rendering accessible to children some of the choice passages of English fairy poetry, well known indeed to their elders, but to them out of reach, as well as to give a few sketches from the romances of King Arthur's Court, often a subject of much youthful curiosity, not easily gratified."

The illustrations are *nineteen* in number ; engraved on wood by Dalziels after drawings by J. B., and the following subjects may be mentioned:—Tom Thumb in his carriage drawn by six mice—Tom in the cow's mouth—Tom hunting on his mouse Sleekfoot—Tom in the ear of the horse—Tom mounted on a butterfly—Queen Mab in her state coach, snail shell drawn by bats, carrying Tom to Fairy land—Tom among the Fairies, &c. &c.

VI.—EDUCATIONAL WORKS.

Grammar of the German Language. By T. HEINRICH WEISSE. Crown 8vo, cloth, price 3s., pp. 120.

In this Grammar the "Author has ventured to deviate from the system adopted in most recent German Grammars for the English." He has kept the requirements of the English pupil steadily in view, his object being to convey as speedily as possible a *practical* acquaintance with the German language. This object, the

author considers, can be most easily attained by "making the natural relations of the two languages the basis of the Grammar." The leading characteristics of the book are:—1. That it is much shorter and more concise, while, at the same time, it really contains *more* than other school grammars. 2. That an attempt is made to concentrate the information on each subject as much as possible. 3. That in the rules for the inflection of nouns, an attempt, and, it is believed, a successful one, is made to shew that they are determined by a principle. 4. That the idiomatic differences of English and German receive special consideration.

First Lesson Book. Price 4d., pp. 52.

The First Lesson Book is adapted to any method of teaching the elements of reading, but has been constructed with special reference to the Phonic, (not the Phonetic); or the method of teaching by the *powers* instead of by the names of the letters. It is arranged in alternate "Word" and "Reading" Lessons, gradually increasing in difficulty. "That rational classification," says the compiler, "should supersede arbitrary arrangement, *even in the first steps of a child's progress*, is a truth already recognised;" and in accordance with this principle, the alphabet is classified, and the lessons graduated. In the earlier stages "no unmeaning combinations of sounds are admitted." A child who has mastered this book, will be able to enter upon any ordinary story-book with ease.

Lesson Sheets of the earlier lessons are thrown off for the use of Schools.

This analysis is applicable to Scotland as well as to England. It contains all the information necessary for Proprietors about to erect Schools, for School managers, Poorhouse Guardians, Certificated Teachers, and Queen's Scholars. The information is so arranged as to be easily accessible. Members of Parliament and others interested in the working of the Committee of Council, will find this abridgment useful.
